THE GOOD & REESE **Co**
CHAMPION CITY GREENHOUSES.

SPRINGFIELD, OHIO.

LARGEST ROSE GROWERS IN THE WORLD.

PONDEROSA LEMON

The above is a photograph of a plant of the Ponderosa Lemon, taken October 1st, 1900. On April 15th this plant was entirely leafless and shows what a remarkable free-growing and free-fruitletting lemon Ponderosa is. Read what the lady says about this plant who grew it, and from whom we purchased it.

No. 30 Antietam St., Hagerstown, Maryland.

The Good & Reese Company—I received your letter yesterday, and was very glad to hear that the Lemon Tree gave such perfect satisfaction. I assure you we still miss the tree, as every one thought it a beauty. I cannot say where the Lemon Tree came from. I have had it for several years, and the friend who gave it to me could not tell how it originated. It was very easy to keep, for after it ripened its fruit in the Fall I placed it in my cellar, which is very bright, having two windows in it. The Spring before you bought the tree from me it had a few buds on when I brought it out of the cellar. I set it in the yard in the open air, and in June it was a beautiful sight in full bloom, and it was in full bloom from that time until you bought it. All those large lemons grew on it after I brought it from the cellar. I can say of this Lemon that it is grand, and no one ever saw anything like it, and anyone may be proud to have it.

ELIZABETH HAGERMAN.

A customer from Pensacola, Florida, who purchased fifty plants of Ponderosa Lemon, says that a frost came while they were in bloom, and that it did not hurt the buds or blossoms, showing that it is a hardier tree than any of the Citrus family. Ponderosa is the largest and best of all Lemons. No matter what others may say, it is the grandest of all fruits.

The Wonderful New Lemon, ... Ponderosa.

Nothing that has ever been brought to our notice in the plant line has caused half the commotion that this wonderful Lemon has. Our sales of it last year were **TWO HUNDRED AND FIFTY THOUSAND PLANTS**, and everybody is delighted with it. We have **FIVE HUNDRED THOUSAND PLANTS** to offer this year. : : : : :

PONDEROSA.

The Ever-bearing Lemon. It is a true ever-bearing variety. On a plant six feet high no less than eighty-nine of these ponderous Lemons were growing at one time. It was a beautiful sight to see. The tree was blooming, and at the same time had fruit in all stages of development, from the size of a pea up to the ripe fruit, showing it to be a true ever-bearer. It blooms and bears fruit when quite small, and you do not have to wait four or five years to get fruit.

PONDEROSA.

Its Ponderous Size. Fruit has been taken from this tree weighing over four pounds. The lemons will average two and one-half to three pounds. Now this may seem to you like a fairy tale, but it is a fact that this is the largest Lemon known. There is a Lemon sold by nurserymen that goes under the name of Large Lemon, but **Ponderosa** is distinct from that variety. The fruit of Ponderosa is twice the size of the so-called Large Lemon. The

Large Lemon is not to be compared to Ponderosa in prolific fruitage. Ponderosa will produce five Lemons or more to its one.

PONDEROSA.

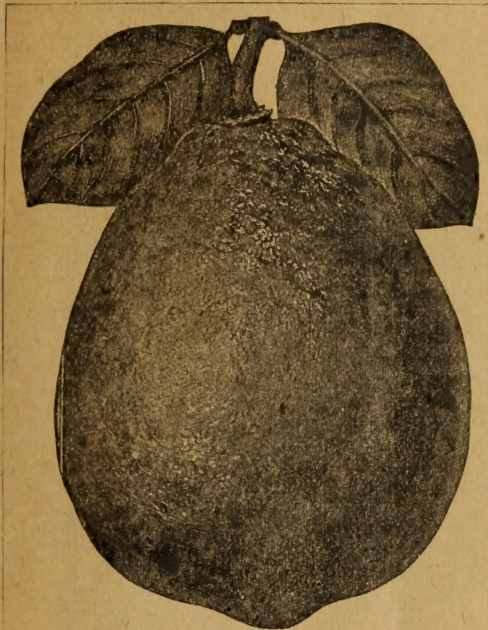

Its Culture. Plant it in any good garden soil. Where freezing is not too severe—say when the temperature does not go below ten degrees of frost—plant it in your garden or yard. When it gets colder than that, plant it in a large pot or small tub, and keep it in the house or cellar during Winter. You can set the tub and plant out on the piazza or lawn when weather gets warm. Give plenty of water while it is growing. No plant is easier to grow.

PONDEROSA

Speaks For Itself. See the photograph on the opposite side from this page. Ponderosa Lemon is sure to become popular when it is known. Everybody can grow his own Lemons, as it will fruit freely the second year. **Thrifty young plants, 15 cents each; two for 25 cents. Strong one-year-old young plants, many of which will fruit this year, 60 cents each; two for \$1.00. Strong, two-year-old plants, eighteen inches to two feet high, \$1.00 each. These will bloom and fruit within the year. Extra strong plants, about two and one-half feet high, to bloom and fruit at once, \$1.50 each.**

PONDEROSA LEMON ON ITS OWN ROOTS.

budding or grafting necessary, as every plant we send out is on its own roots, and will produce fruit as freely and large as shown in the photograph.

PONDEROSA LEMON.

PONDEROSA.

Its Fragrant Flowers. In size and fragrance far excelling the Orange blossom. Coming, as they do, in immense clusters of pure snow white, the center of each flower being filled with yellow stamens, remaining quite a while before falling, a plant of this Lemon in bloom will scent your house through and through with the fragrance of the delicious Orange blossom.

PONDEROSA.

Its Flavor Unsurpassed. The Lemons have very thin rind for such large fruit. It is the juiciest of all Lemons, makes delicious lemonade, and for culinary purposes cannot be excelled. It is not uncommon to make twelve lemon pies from one Lemon. All who have tasted this Lemon unite in saying that for delicious flavor no other Lemon could approach it. It is not a Lime fruit, and does not resemble a Lime in any particular. Ponderosa is the largest, juiciest, richest-flavored Lemon ever produced. Lemons sold under other

names are claimed to be as large and fine as Ponderosa. It is false. Get the true Ponderosa.

PONDEROSA.

As a House Plant. If Ponderosa Lemon did not produce a single bloom or fruit it still would eclipse many of the plants used now for decorative purposes. We say this to let you know that it is one of the most desirable of house plants. It will stand all kinds of rough usage and neglect and still look well. The foliage is deliciously fragrant, is very large, thick and leathery, of the deepest green. You can prune it into any size or shape desired without affecting its blooming or fruiting. We think it a far more decorative plant as to foliage alone than the famous Rubber Tree, but when in full bloom with fruit in all stages of development, from wee, tiny things, to the ponderous golden yellow fruit, then it is "a thing of beauty and a joy forever." It is a grand plant for a tub to be kept indoors.

PONDEROSA.

As a Fruit of Commerce. This Lemon will be introduced to commerce just as soon as the trees can be grown. We have sold many thousands of it for outdoor planting. The South is particularly adapted to its culture. It is a much hardier tree than the Orange, it having stood in a shed when the temperature was below zero without any damage to the tree. In the South and Pacific States plant it in your yard or garden.

We have the entire stock of this ponderous Lemon, and guarantee the trees to produce the same large fruit. No budding or grafting necessary, as every plant we send out is on its own roots, and will produce fruit as freely and large as shown in the photograph.

**THE GOOD & REESE COMPANY,
LARGEST ROSE CROWERS IN THE WORLD.**

Springfield, Ohio.

"Liberty" Collection of Ever-blooming Roses.

We include in this set the very best Roses for the garden. There are none better for this purpose. These Roses are all good, healthy plants, exceedingly well rooted. In ordering, say "Liberty" collection.

Price, 10 cents each; or the set of ten for 75 cents. Large two-year-old plants, 30 cents each; four for \$1.00; or the ten Roses in two-year-old plants for \$2.25.

MADAME DE VATREY.—The Creole Beauty. One of the Brightest Roses. We consider this splendid variety to be not only one of the brightest, but one of the very best and most satisfactory Roses for general planting, especially for outdoors. In New Orleans it is a prime favorite. It makes big, clean buds of great beauty and opens well, showing the large, full, double flowers to great advantage. The color is a rich red, changing to silvery peach—reminds one of the delicate hues seen on the inside of the fairest deep-sea shells—rosy flesh, bathed in golden amber, broad, shell-like petals, bright and beautiful. In every way a fine Rose.

DUCHESS DE BRABANT.—The People's Rose. Every order we get from New Orleans includes this charming variety. In the desire to obtain new varieties of Roses, rosarians and dealers are too often prone to overlook old standard sorts which are unquestionably meritorious. Some sorts are too good to be crowded to the wall by new aspirants for honors, as witness the General Jacqueminot, Marechal Niel, La France, Malmaison, and many others, and to this class belongs the Duchess de Brabant. Roses come and go, but these go on forever. Duchess de Brabant unites in a pronounced degree the highest attributes of a garden Rose. It is vigorous, never fails to produce flowers, healthy, rarely diseased in any way, large, full blossoms, beautiful in bud and flower, a beautiful shade of soft, rosy flesh, deepening to warm pink and bright rose. Delightfully fragrant.

MARIE VAN HOUTTE.—The Gem, or Fair Unknown. Of a fine, faultless, straw yellow color, with the outer petals washed and outlined with a bright, rosy crimson. Occasionally the whole flower will be suffused with light pink. It grows vigorously, blooms freely, and is most deliciously scented. In cool weather it almost changes color, taking on gorgeous crimson tints. A beautiful and superb Rose.

STAR OF LYON.—Etoile de Lyon. This magnificent Tea Rose is a rich golden yellow, a strong, healthy and vigorous grower, immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full, excellent substance, very sweet. Surely one of the very best and most beautiful yellow Tea Roses for general planting ever introduced. Remarkably hardy, both as to heat and cold, frequently standing the Winters here uninjured in open ground without protection, and blooming nicely all through the hottest part of the Summer.

MAMAN COCHET.—No Finer Rose Than This. This Rose attracted our attention from the very first time we saw it in flower. It comes from France—the country that has produced nearly all of our best Roses. We are not alone in our admiration of it, as all the visitors to our establishment the past season have been unstinted in its praise. It is a vigorous grower, with beautiful, pretty foliage. In bud it resembles the Mermet family, being long and shapely, borne on long, stiff stems. It is of the largest size, and, as you will notice, the flower is built up or rounded and very double. The color is a deep, rosy pink, the inner side of the petals being a silver rose, shaded and touched with golden yellow. We pronounce this the finest Rose by far that has been introduced from France in the past five years. No Rose surpasses it in vigorous growth and in the immense size of its buds and flowers. Indeed, nothing in the Tea family approaches it in size. Deliciously fragrant.

TRIUMPH DE PERNET PERE.—New Hybrid Tea Rose. Originated and sent out by Jean Pernet, one of the most celebrated Rose growers of France, who has already given us some very beautiful Roses, but considers this the triumph of his life (the name translated would read, "Triumph of Father Pernet") and besides his endorsement it has received the commendation of the highest European authorities, and as far as we can judge it is well worthy of them, and promises to be one of the very finest of the Hybrid Tea class. The flowers are extra large, having broad, thick petals, and long, tapering buds, with delicious Tea fragrance. Color a fine, clear, magenta red, sometimes passing to a bright crimson. Very striking and beautiful, and of such good substance that the flowers retain their beauty for a long time. Very brilliant and beautiful.

MADAME LAM-BARD.—A Good Bedding Rose. A first-class Rose for bedding. Extra large, full flowers, very double and sweet, color a beautiful shade of rosy bronze, passing to salmon

and fawn, beautifully shaded with carmine. An elegant Rose, of vigorous habit of growth. Very free and constant bloomer.

BRIDESMAID.—Deep Pink Mermet. Here we have a new Rose, a sport from that old standby, Catherine Mermet. This new variety retains all the good qualities of the parent, besides adding charms not possessed by the sweet Catherine. All know that Catherine Mermet takes precedence as a pink Rose. More plants of it are cultivated by the amateur, and more cut bloom is sold by the flower dealer of it than any pink Rose. Why? Because the bud is of excellent shape and contour, so solid and firm, and the stems are so long and stiff that no other Rose will compare with it in keeping qualities after being cut. It is about two shades deeper in color—just enough to make it bright; and it is the same color all the time under every condition of weather and surroundings. We recommend this Rose, believing that our patrons will be pleased with it.

REINE MARIE HENRIETTA.—This is the only climbing Rose in this set, but no collection would be complete in New Orleans or the South that did not comprise this, the grandest of all ever-blooming climbing Roses. Extra large, finely formed flowers, very full and double, borne in clusters. Color glowing crimson.

PRISCILLA, OR WHITE MAMAN COCHET.—The Charming New White Tea Rose. Another new American Rose, but as widely different from all other white Roses as one can well imagine. It belongs to the Tea class, being a child of that grandest of bedding or outdoor Roses, Maman Cochet, and is hardly here in Northern Ohio, with slight protection in Winter. Its habit is exceedingly strong and upright, like its parent, and it possesses the same large, beautiful, healthy foliage, and is a most profuse and constant bloomer. The flowers are of enormous size, remarkably round and full, pure, clear, snowy white throughout, and are delightfully Tea scented. It is by far the finest and most reliable white bedding Rose yet produced, and should be planted by everybody. By planting a few plants of it any one can have the very finest Roses for cutting and for use in vases, upon altar, dining table, parlor, etc., all Summer and Autumn. Without question the largest white Rose, both in bud and flower. No other Rose of its color approaches it in size. It is startling. This Rose will disappoint no one who plants it.

Hardy Ever-Blooming Roses.

"CHAMPION" COLLECTION.

We have often been asked to name the hardiest Roses that are ever-bloomers. We have combined in this collection only such kinds as bloom freely, and that will stand zero weather. If you want Roses that are hardy enough to stand cold Winters and bloom all Summer, you want the "CHAMPION" Collection. In ordering, say "Champion" Collection of Roses, and we will know what you want. : : : : : : : : : : : : : : :

Twelve hardy ever-blooming Roses for only \$1.00. Large two-year-old plants of any of these Roses, 30 cents each; or any four for \$1.00; or the entire set of twelve Roses, in two-year-old plants, for \$3.00.

SUMMER QUEEN.
From early Summer until frost it may be depended upon to produce flowers in abundance. In color it is a rich, glossy pink, delightfully fragrant, and is such a strong, vigorous grower that it is almost impregnable against the attacks of insects which usually destroy some of our finest Roses. Thus it is certain to be unequaled for the garden or cemetery. A royal Rose.

DUCHESS OF ALBANY.
The best light red Rose by far ever introduced. A beauty.

METEOR.
A velvety red ever-bloomer of the deepest glowing crimson. As fine as a Hybrid. A beautiful open Rose, a free bloomer, and a very excellent pot Rose.

LA FRANCE.
Too well known to need description. It is acknowledged everywhere as the "Queen of Roses."

STRIPED LA FRANCE.
Striped La France combines all the good qualities of La France in growth, shape of bud and flower. In fact, differs not from it except in color. It is nicely striped, the marking being plain and distinct, the variegation being a beautiful bright rose on a satin pink ground.

WHITE LA FRANCE.
This new Rose had prominence from the time of its introduction. It is identical with La France except its color, which is almost pure white. The shading of fawn it has only enhances its beauty. A grand Rose.

The Burbank Rose.

A Perfectly Hardy New Ever-blooming Rose.
This lovely Rose was raised by Mr. Luther Burbank, of California, known the world over as the "Wizard of Horticulture," and is the only variety out of seventy-five thousand cross-bred seedlings which he raised that he was willing should bear his name. This Rose is the only rival that the famous variety Champion of the World has. The color is described as cherry crimson—it is, in other words, the very deepest and brightest pink Rose in cultivation. It is peculiarly adapted for both outdoor planting or for blooming in pots in the house during Winter. It is a strong, vigorous grower, making a well-rounded, bushy plant.

CHAMPION OF THE WORLD.
This is indeed the champion Rose of the world. It is champion in hardiness and champion in free blooming. It is a true perpetual hardy blooming Rose. None better. Color a rich, deep, rosy pink, very bright, and deliciously fragrant. The best of all Roses.

THE QUEEN.
This Rose has stood with us ten degrees below zero without being hurt. It is a vigorous grower, producing pure white flowers in abundance.

The above twelve Hardy Ever-blooming Roses for 10 cents each; or the twelve for \$1.00. Try them, and see what a lovely bed of Roses you can have.

THE BURBANK ROSE.

CLOTHILDE SOUPERT.

The color is a French white, deepening to a rosy blush in the center. Its greatest value lies in its wonderful profusion of bloom, even the smallest plants being literally covered with flowers. Even in mid-Summer a bouquet of splendid buds and open flowers can be obtained from this fine variety.

MADAME SCHWALLER.

It is very free in bloom, and has the fragrance of the old June Roses. The color is a bright, rosy flesh, paler at the base of the petals, and deepening on the edges. Try it. It is magnificent.

MRS. DEGRAW.

Very hardy, and a constant bloomer. It has large, beautiful foliage, and a vigorous grower. Flowers are beautiful, vivid carmine and bloom throughout the season.

NEW ROSES *x* NEW ROSES

We get each year all the new Roses that are brought out; they number annually from sixty to one hundred varieties. These we give a test and only offer what we consider the very best. Roses are like human faces—no two are alike. They always differ in some respect; some are stronger growers, others are hardier, others again are sweeter in fragrance, while but few are alike in color, and it is quite a task sometimes to determine which are meritorious. After careful trial we consider the following Roses the cream of the new varieties; they are well worthy a trial:

ADMIRAL SCHLEY.

Red Burbank. This is a new bedding Rose of great excellence sent out by Mr. John Cook, of Baltimore, who has originated a number of our finest Roses. It is best described as a red Burbank. A very free bloomer, and, we believe, has come to stay. **20 cents each; three for 50 cents; large two-year-old plants, 20 cents each.**

ALLIANCE FRANCO-RUSSIA.

Another of the really good Roses of the year. Very large, double, and of beautiful rounded form, a soft, glowing orange and copper, flushed and shaded with ruddy crimson. **20 cents each; three for 50 cents; large two-year-old plants, 60 cents each.**

BALTIMORE.

Raised by Mr. John Cook, of Baltimore, and named by him in honor of his own city, and believed by him to be the very best Rose he has ever sent out, and he has originated some "crack-a-jacks." Color a shade lighter than President Carnot, whose general make up the flower resembles. A really good thing. **20 cents each; three for 50 cents; large two-year-old plants, 60 cents each.**

BESSIE BROWN.

A Rose of transcendent beauty, totally distinct, and one of the largest and fullest that we have ever seen. It is erect and vigorous in growth, flowering profusely in the open ground all through the Summer. Color pure white, sometimes faintly flushed pink. Petals enormous and of shell-shape. It is really marvelous that such large flowers can be so freely produced. Received gold and silver medal from the National Rose Society, England, and numerous certificates and prizes. This variety is a gem of the first water. **25 cents each; large two-year-old plants, 75 cents each.**

BEATRIX DE BUISSERET.

Bud extraordinarily beautiful, flower very large, quite full, of beautiful form and perfect texture, silvery rose and rosy carmine. Free and fragrant. Seedling from Testout. **20 cents each; three for 50c; large two-year old plants, 60c each.**

DR. CAZENÈVE.

Flowers large and nicely formed. Dark velvety crimson in color, like Jean Liabaud. This is one of the finest of dark Hybrid Teas. **20 cents each; three for 50 cents; large two-year-old plants, 50 cents each.**

CLIMBING SOUPERT.

This is a climbing form of that grand variety, Clothilde Soupert. The flowers and foliage are identical with that variety, differing in that the growth is a rampant climber, as free in bloom as its parent. This makes grand plants to grow in the field, and prune or train into bush form for Spring flowering; much superior to the parent variety. **20 cents each; three for 50 cents; large two-year-old plants, 75 cents each.**

CORALLINA.

Deep rosy crimson, large petals, fine in bud and form, very strong growing and free blooming. **20 cents each; three for 50 cents; large two-year-old plants, 50 cents each.**

THE GRANDEST ROSE IN THE WHOLE WORLD, FRANCES E. WILLARD. (See description on page 9.)

CORONET.

The sweetest, largest and freest-blooming Hybrid Tea Rose in cultivation. It is a cross between those superb varieties Paul Neyron and Bon Silene, two grand old favorites. Coronet is a true ever-blooming Hybrid Tea, identical in form and size with Paul Neyron. No description or illustration can do justice to the remarkable beauty and splendor of its flowers. They are grand in every way. From the time the plant is four inches in height it blooms steadily, bearing in unbroken continuity, on good, stiff stems, magnificent large flowers that frequently measure from four to six inches in diameter. The form is full, deep and wonderfully double. It is full to the center, and when entirely open the flowers do not look unlike Paeonies. This resemblance is made all the more striking by the peculiar color, which is absolutely unlike any Rose we know. In the bud the color is a deep, rich carmine, which, as the flowers open, lightens to a soft, clear pink, with each petal distinctly edged with silvery gray. The effect is beautiful. The fragrance is simply delicious. In flower and foliage it resembles Paul Neyron, while in vigor of growth the Bon Silene blood is shown. It is a strong, healthy grower, forming a compact bush. In the open ground, where it is hardy, it does splendidly, commencing to bloom early in the season and continuing until severe freezing weather. Slight protection during Winter will be beneficial. Probably the most valuable and satisfactory Rose for general cultivation sent out for many years, and people who plant it will make no mistake. **20 cents each; three for 50 cents; large two-year-old plants, 50 cents each.**

FRANCES E. WILLARD, Grandest White Rose in Existence.

One of the startling new Roses of recent date. It has gigantic flowers with enormous magnolia-like petals; one of the hand-somest and most effective of roses and very distinct. The color is pure white; blooms are borne in great profusion on stiff stems, with heavy foliage. Longer stems would rank this with American Beauty, but we recommend it to every Rose grower. In our local trade buyers have been carried away with its beauty, and are willing to pay a good price for the blooms. In England, the past year, it took first prize at the Crystal Palace show for twelve blooms of any white Rose over The Bride, Bessie Brown, Kaiserin, and others. It was eminently fitting that we named this Rose in honor of the hallowed memory of the grandest of all women, Frances E. Willard, the great apostle of Temperance and Purity, the white Rose being the emblem of the society (W. C. T. U.) for which she gave her life. We are the introducers of this Rose, and control the entire stock, having a certificate of registration from the Society of American Florists. For illustration see page 8. **20 cents each; three for 50 cts.; large two-year-old plants, 50 cents each.**

GAINSBOROUGH.

The best of all climbing Roses. We are very proud to bring this fine Rose to the notice of all rosarians, be they amateur or professional. It originated with us three years ago, since when we have given it the most thorough trial, and we are fully convinced that for a hardy ever-blooming climber it has no equal, even eclipsing that grand variety Mrs. Robert Peary. For beauty and size we place this variety at the head of the Hybrid Teas. The foliage is an exact counterpart of its parent, Viscountess Folkestone. Its delicate colors are hard to describe, being delicately tinted flesh, almost white, and lustrous as satin. When in full bloom it resembles a large, fine, white, fluffy paeony, but without a suggestion of stiffness, often measuring eight to nine inches in diameter. An enthusiastic admirer describes it as a Rose reminding him of a beautiful girl wearing a light colored Gainsborough hat, ornamented with white ostrich plumes. Hence the suggestion of its name. Be sure and try this grand Rose. We control the entire stock of this grand Rose, it being registered with the American Rose Society by us. **25 cents each; two-year-old plants, 75 cents each.**

GLADYS HARKNESS.

Growth very erect and vigorous, reminding one of American Beauty, profuse in bloom, flowers large, formed like a fine Hybrid Perpetual. Color deep salmon pink. Has a splendid constitution, and is very fragrant. This we think is the very best of the Testout family of Roses, it being much more vigorous in growth than any of the other varieties of this type. The petals are large and elegantly formed, the color is bright and fresh; you will make no mistake to plant this grand Rose. **25 cents each; large two-year-old plants, 75 cents each.**

HELEN GOULD.

The Sensational Rose. This is probably the most beautiful and satisfactory Rose for general planting ever introduced in America. It has proved itself to be the strongest-growing, freest-blooming, largest-flowering and hardiest Rose in existence. It is a better Rose for general planting than American Beauty—the dream and hope of every Rose grower for years past. The flowers are full and perfectly double, the buds beautifully made, long and pointed. The color is a warm, rosy crimson, like the color of a ripe red watermelon. It is as hardy as La France. We guarantee our plants to be the true variety. We were so impressed with its worth, that we have grown 50,000 plants of this one variety alone the past season. It is a very easy Rose to get along with; anybody can grow it and you can't keep it from blooming. Be sure and plant this grand Rose. **20 cents each; three for 50 cents; two-year-old plants, 50 cents each.**

JULES GIRODIT.

Flowers very large and of good form; rosy peach color shading to bright pink. Very free, magnificent in size and form. **20 cents each; three for 50 cents; large two-year-old plants, 50 cents each.**

L'INNOCENCE.

This great Rose is called the White Madam Caroline Testout. It is a strong symmetrical grower, quite free from thorns, foliage large and leathery, flowers large, full, deep and double; globular in form. Color bright snowy white, the petals are thick, shell like and very large. The flowers are borne with great freedom upon long stems. **20 cents each; three for 50 cents; large two-year-old plants, 50 cents each.**

LADY CLANMORRIS.

Perfectly distinct, a splendid Rose of very robust growth and free branching habit, flowers continuously and freely throughout the season. Blooms very large and of good form; petals large, smooth and of great substance. Creamy white with delicate salmon center, edge of the petals margined pink. **20 cts. each; three for 50 cents; large two-year-old plants, 50 cents each.**

LADY MARY CORRY.

Growth vigorous and of erect branching habit, blooms of good size freely produced and perfectly formed. Color deep golden

yellow, distinct and fine. **20 cents each; three for 50 cents; large two-year-old plants 50 cents each.**

LIBERTY.

This Rose marks the limit of glorious deep, yet bright coloration in a family by no means deficient in warm, rich hues of crimson red. Most nearly approached by Meteor in color, this newcomer surpasses that standard variety in purity, being without the tendency to blacken that Meteor exhibits, and also the blue cast sometimes seen on the fully expanded petals of Meteor has not been detected in any degree whatever upon a single one of many critically examined blossoms of Liberty. This novelty does not exact a temperature in excess of that generally accorded to other Roses when grown under glass. Liberty is destined to become the one dark flowered Rose for both commercial and private uses. Will be distributed in March. **20 cents each; three for 50 cents; large two-year-old plants, 50 cents each.**

MARIE LOUISE.

This is the old Aurora, but in New Orleans and throughout the South it goes under the name of Marie Louise, and as we have a new Tea Rose of that name, we will henceforth catalogue it as Marie Louise. Flowers of large size and extremely profuse in its blooming. Try this in your garden. It will please you. **10 cents each; large two-year-old plants, 35 cents each.**

M. F. DAUPAIS.

A free blooming variety, very odorous, color creamy white with rosy carmine shading, fine round bud opening into a large fine flower. **20 cents each; three for 50 cents; large two-year-old plants, 50 cents each.**

MARIE LOUISE POIRET.

Bud long and pointed, flowers very large, full and of splendid texture, the petals are large, outer edges fresh rose, center darker. Very free and odorous. **20 cents each; three for 50 cents; large two-year-old plants, 50 cents each.**

PRINCESS OF NAPLES.

This new variety flowers very freely and easily, and keeps on flowering for a long time. The flowers are of good form, solid, but nevertheless of very loose, graceful appearance. Color delicate satiny pink. The fragrance is excellent; better, stronger and more agreeable than that of La France. The whole plant is covered with flowers in the main flowering season. Extra. **20 cents each; three for 50 cents; large two-year-old plants, 50 cents each.**

ROSOMANE GRAVERAUX.

This variety is of the general style of Pres. Carnot, with an enormous long bud producing a very large double open flower carried on a long stiff stem, the petals are very large. Color silvery white with reverse of rosy flesh. Very fragrant and very free. **20 cents each; three for 50 cents; two-year-old plants, 50 cents each.**

SUNRISE.

This has made a sensation in England and taken first honors wherever shown. In close bud form it shows the high, brilliant colors seen only in the Austrian copper, scarlet and yellow. As it opens the color deepens, the scarlet turning darker red, the yellow to orange and copper, the inside of the petals golden yellow. The open Rose is large, perfectly

double and of grand form. The foliage is glossy and thick, the new growths being the darkest and most beautiful found among Roses. **20 cents each; three for 50 cents; large two-year-old plants, 50 cents each.**

WINTER GEM.

This Rose flowers all the time, particularly during the Winter, hence its name. The blossoms are of large size and a lovely crimson color. Buds perfectly exquisite and the open flower full and double. A great Rose for amateurs, and one that will bloom in any window at all times of the year. **15 cents each; two for 25 cents; large two-year-old plants, 50 cents each.**

WINNIE DAVIS, The Daughter of the Confederacy.

This excellent Rose was raised from seed, being a cross between the famous Empress Augusta Victoria and the well-known Belle Siebrecht. The color is apricot pink, shading to a flesh tint at base of petals, buds oblong and well formed, when fully expanded resembles a sunburst, most peculiar, and most strikingly beautiful. Its habits are vigorous and robust, very free blooming, each eye producing flowers; foliage leathery, reddish green, glossy and very large; also has the disposition of throwing up vigorous shoots from the roots, producing three to eight blooms, its peculiar fragrance like luscious apricots. For the Middle and Southern states we claim the Winnie Davis to be an acquisition second to none introduced in recent years. Strong, thrifty plants, two and a half inch pots. **20 cents each; three for 50 cents; two-year-old plants, 60 cents each.**

WHITE LADY.

It has gigantic flowers with enormous magnolia-like petals. The color is white; delicately flushed with pale pink; blooms are borne in great profusion on stiff stems, with heavy foliage. Took first prize at the Crystal Palace show for twelve blooms of any white Rose over The Bride, Bessie Brown, and others. **20 cts. each; three for 50c; large two-year-old plants, 50 cts. each.**

Belle Siebrecht.—One of the grandest of bright pink Roses.
Bouquet of Gold.—Deepest rich golden yellow. Extra.
Bridesmaid.—Stands at the head of all the pink Roses.
Burbank.—Always in bloom. A grand bedding pink variety.
Catherine Mermet.—Color a clear rosy pink, large and fine.
Champion of the World.—Rich, deep rosy pink. Very free.
Christine de Neve.—Color a rich bright red, center deeper.
Clara Barton.—A new pink Rose that is a wonder. Extra.
Clara Watson.—Salmon pink, extremely free in bloom. Extra.
Clothilde Souper.—Pure white, pink center. Best of all.
Comtesse de Frigneuse.—Deep golden yellow, large and full.
Cornelia Cook.—The old favorite white rose, none better.
Countess Eva Starhemberg.—White, tinted golden yellow.
Crown Princess Victoria.—(White Malmaison.) Pure white.
Devonensis.—Magnolia fragrance, creamy white color.
Duchess de Arenburg.—Pink, edge of petals almost white.
Duchess de Brabant.—Salmon pink, an old time favorite.
Duchess of Albany.—(Red La France.) Charming. Extra.
Duchess of Edinburgh.—Large buds, intense dark crimson.
Empress Eugenie.—Deep pink, everybody's favorite. Extra.
Enchantress.—Creamy white, tinted buff in center.
Etoile de Lyon.—(Star of Lyon.) Deep golden yellow.
Ferdinand Jamain.—Rosy carmine shaded with salmon.
Francis Dubreuil.—Deep vivid crimson, a delightful Rose.
Gardenia.—Purest paper white, shaped like a Cape Jasmine.
General Robert E. Lee.—Color orange yellow, shaded white.
Very rich and beautiful, a grand variety. Extra.
Golden Gate.—Color a rich creamy white, beautifully tinged with golden yellow, a very choice rose. Extra.
Grace Darling.—Porcelain rose, shaded crimson. Extra.
Grassan Teplitz.—Deep velvety crimson, grand bedder. Extra.
Helen Cambier.—Salmon rose and coppery yellow. A very handsome Rose.
Henry M. Stanley.—A rare shade of amber rose delicately tinged with apricot yellow towards the center.
Hermosa.—Beautiful clear pink flowers, very hardy. Extra.
Highland Mary.—Delicate white, tipped pink.
J. B. Varonne.—Scarlet crimson and buff color.
Jewel.—Has different colored blooms at one time.
Johannes Wasselhoff.—Deep yellow, the bedding Perle. Extra.
Kaiserin Augusta Victoria.—Pure white, hardy. Extra.
Killarney.—Salmon pink, deepening to rosy red.
Lady Dorothea.—The greatly improved Sunset.
La France.—Too well known to need description, a favorite.
Leonic Osterleth.—(White Souper.) Pure white, grand bedder.
Letty Coles.—Color a soft rosy pink shaded with crimson.
Lottie Baumgardner.—Brilliant carmine, shaded peach.
Luciole.—Color bright carmine rose, shaded yellow.
Madame Abel Chatenay.—Rosy red with darker shadings. Superb.
Madame Bouillet.—A very delicate pink colored Rose.
Madame Caroline Testout.—Color a brilliant satiny rose. Extra.
Madame de Vetry.—(The Creole Beauty.) Rich red, changing to silvery peach. Extra.
Madame de Watteville.—(Tulip Rose.) Rosy blush, bordered red.
Madame Eli Lambert.—Rich creamy white, tinted yellow.
Madame Honore Defresne.—One of the very best deep yellow Roses.
Madame Hoste.—Long pointed buds of pure white.
Madame Husson.—A light colored rose with yellow center.

Madame Lambard.—Rosy red, passing to salmon and fawn. Extra.
Madame Pernet Ducher.—(Yellow La France.) Lemon yellow.
Madame Schwallier.—A deep rich pink, very fragrant. Extra.
Madame Scipion Cochet.—Color a soft primrose yellow, flushed pink.
Madame Welche.—Color amber yellow and crimson rose.
Mademoiselle Cecile Berthod.—A deep, rich golden yellow.
Mademoiselle Franciska Kruger.—Probably the best all round bedding rose we have; deep coppery yellow.
Maid of Honor.—A charming variety. Deep pink.
Maman Cochet.—Don't fail to try this beautiful rose. Color a deep rose pink shaded and touched with yellow.
Marie Guillot.—The old standby for a pure white Rose.
Marie Van Houtte.—Canary yellow, flushed with pink.
Marion Dingee.—Deep, brilliant dark crimson.
Medea.—A grand yellow rose of the largest size.
Meta.—Coppery yellow suffused with pink and crimson.
Meteor.—This rose ranks at the head of all the dark rich velvety red Roses. None better.
Mosella.—(Yellow Souper.) Deep yellow center, outside white.
Muriel Graham.—Pale cream, faintly blushed rose.
Mrs. Degraw.—The color is a rich glossy pink. Hardy.
Mrs. Mawley.—Rosy pink, shaded with yellow. Extra.
Mrs. Robert Garrett.—Probably the very best of all bright pink Roses. A gem. Extra.
Niphotos.—A most elegant white Rose, enormous buds.
Papa Gontier.—Rich bright red and crimson.
Perle des Jardins.—Clear golden yellow, very rich and beautiful.
Pierre Guillot.—This superb rose has no superior. Always in bloom, buds and flowers of enormous size, of the richest red.
Princess Alice de Monaco.—Creamy white on the outside petals with a faint rosy blush on edges.
Princess of Wales.—Amber yellow, deepening to orange yellow.
Princess Sagan.—The color is a rich velvety crimson.
Priscilla.—(White Maman Cochet.) The grandest of all white garden Roses. Extra.
Queen of Bedders.—Velvety crimson, a blaze of glory.
Queen of Fragrance.—White, tinged pink, deliciously fragrant.
Queen Olga of Greece.—A lovely light pink Rose.
Rainbow.—Blotched and streaked pink and crimson.
Red Malmaison.—The color is a rich dark crimson.
Ruby Gold.—Old gold with richest crimson. Colors dazzling.
Silver King.—The largest and best hardy pink Rose. Very light and silvery effect. Extra fine.
Sombreuil.—Beautiful white tinged with delicate rose. Extra.
Souvenir de Catherine Guillot.—Color a coppery rose, center shaded orange, very beautiful.
Souvenir de La Malmaison.—The Souvenir of the south. Creamy flesh with rose center.
Souvenir de Madame Eugene Couvin.—It combines shades of white and yellow in pleasing contrast.
Souvenir de Madame Eugene Verdier.—Creamy white, shading to yellow. This is a very desirable Rose.
Souvenir de President Carnot.—Lovely fawn, shading to pearl, one of the grandest of Roses. Extra.
Souvenir de Victor Hugo.—Color a lovely citron red with amber and fawn shadings.
Souvenir of Wootton.—Rich crimson red, in large clusters.
Striped La France.—Same as La France except the color is pink with light stripes through it. Superb.
Striped Malmaison.—Just what its name indicates.
Summer Queen.—Bright clear pink, a great garden Rose.
Sunset.—Orange yellow, with tints of a beautiful sunset.
The Bride.—This is a pure white Rose of the largest size, buds and flowers of the largest size. Pink outside.
The Queen.—Pure snow white, beautiful long buds.
Triumph of Pernet Pere.—The triumph of Father Pernet. Magenta red, passing to rich crimson. Extra.
Viscountess Folkestone.—Pure white, faintly tinted fawn.
White La France.—Pure white, suffused with pearl.
White Perle des Jardins.—Buds and flowers of the largest size. Pure white. Extra.

ROSES, EVER-BLOOMING Diamond List.

LOOK OVER THIS LIST AND SEE IF MANY OF YOUR OLD FAVORITES ARE NOT HERE. . .

Remember, that our large two-year-old Roses will cost you 25 cents each from this list; five for \$1.00. These are superb plants. They are the best you have ever seen.

- Adam.**—Bright flesh salmon rose, large and double.
- Agrippina.**—An old favorite garden Rose. Deep crimson.
- Aline Sisley.**—Deep rose, a finely, pleasing fragrance.
- Andre Schwartz.**—Beautiful crimson, free-flowering variety.
- Anna Ollivier.**—Lovely blush, shaded with carmine.
- Antoine Verdier.**—Rich, dark carmine pink; very free.
- Archiduc Charles.**—Bright and changing to silvery pink.
- Baroness Berge.**—Primrose yellow, suffused with bright pink.
- Bon Silene.**—Deep carmine, very free and deliciously fragrant.
- Bougere.**—Bronzed pink, tinged with lilac. Large and full.
- Caroline Marneffe.**—Pure white, blooms in clusters. Hardy.
- Comtesse Riza du Parc.**—Coppery rose, tinged with soft blush.
- Coquette de Lyon.**—(The Yellow Hermosa.) A lovely light yellow Rose and a very free bloomer.
- Crimson Bedder.**—A grand free-flowering red Rose; good for the garden.
- Douglas.**—Dark cherry red, rich and velvety, very fine.
- Dr. Grill.**—Coppery yellow color with tawny reflex.
- Enfant de Lyon.**—The sweet anise Rose. Very sweet.
- Eugene de Beauharnais.**—Lovely deep red. A good garden Rose.
- General Tartas.**—Deep rose, mottled, sometimes tinged buff.
- Homere.**—Soft, clear rose, with salmon shades. Splendid.
- Isabella Sprunt.**—Clear canary yellow; an old standby.
- Jules Finger.**—Bright rosy scarlet and intense crimson.
- La Princesse Vera.**—Pale flesh, changing to salmon.
- La Sylphide.**—Blush with fawn center, very large and double.
- Louis Philippe.**—Rich dark velvety crimson, free and beautiful.
- Louis Richard.**—A coppery rose, beautifully tinted with lilac.
- Madame Bravy.**—Creamy white, large, full, very symmetrical.
- Madame Camille.**—Delicate rosy flesh, changing to salmon rose.
- Madame Caroline Kuster.**—Bright lemon yellow, very good.
- Madame de St. Joseph.**—Carmine, changing to salmon or fawn.

- Madame Isaac Peretie.**—Deep rose, very bright, Hardy.
- Madame Jean Sisley.**—Pure white, long buds. Handsome.
- Madame Joseph Schwartz.**—White, flushed pink. Cupped.
- Madame Margottin.**—A citron yellow, with coppery center.
- Marechal Robert.**—Lemon white, tinged rosy blush.
- Marquis de Vivvies.**—Bright carmine, center lighter.
- Monseur Furtado.**—Yellow, well formed, very full and fragrant.
- Monthly Cabbage.**—A lovely shade of blush. Fine.
- Pink Dolly.**—Light pink flowers, produced in clusters.
- Pink Souper.**—A lovely pink bedding or pot Rose.
- Queen's Scarlet.**—The loveliest of velvety crimson Roses. A grand bedding variety. Extra.
- Safrano.**—A bright apricot yellow, changing to orange and fawn.
- Sanguinea.**—Rich velvety crimson. A grand Rose to bed in masses for color effect.
- Snowflake.**—Pure white, always in bloom. Extra.
- Souvenir d'un Ami.**—Fine delicate rose, shaded with salmon. A fine variety.
- Sylph.**—Ivory white, tinted with peach color. A very beautiful blending of colors.
- Triomphe de Luxembourg.**—Rosy carmine on a buff ground.
- Virginia.**—Light yellow, tinted with saffron.
- Viridiflora.**—Flowers and buds pure green. A great curiosity.
- White Bon Silene.**—Pure white, very fragrant.
- White Bougere.**—Pure ivory white. A grand white Rose for the garden, of the largest size.

POLYANTHA, OR FAIRY ROSES.

NOTICE: We cordially recommend these exquisite Ever-blooming Fairy Roses. They are of a shrubby, compact growth, bloom profusely all through the season, and are very desirable for bedding, as well as for edging, borders, etc. They are moderately hardy, but should have a covering of leaves or litter just before Winter begins.

PRICE, 8 CENTS EACH; LARGE TWO-YEAR-OLD PLANTS, 25 CENTS EACH.

- Eliza Chatrand.**—One of the most lovely of all Roses, having lovely rose colored flowers, elegantly penciled and touched with ruddy saffron. Very free bloomer.
- Etoile d'Or.**—A new Polyantha resembling Perle d'Or, excepting in color, which is a deep chrome yellow. A dainty beauty that will win its way wherever planted.
- Etoile de Mai.**—Wonderfully free, both in growth and flower. A continuous and persistent bloomer, being literally covered with bloom the whole season. A beautiful mankeen yellow, changing to creamy white, with lemon center in the open flower.
- George Pernet.**—It is continually in bloom, the flowers being quite large for this class, of a beautiful, flat form. The color is a very bright rose, with touches of yellow and passes to pencil-blow, with silvery white shadings. The prettiest of all Polyantas.
- Golden Fairy.**—This is a lovely Rose. Very free flowering, color rich golden yellow. Entirely distinct.
- Jeannie Drivon.**—Color light flesh, changing to white. Very perfect, double flowers.
- Mignonette.**—A lovely Fairy Rose. Full, regular flowers, perfectly double, and deliciously perfumed. Color a clear pink, passing to white, tinged with pale rose.
- Mrs. E. A. Nolte.**—A lovely shade of chrome yellow. A new color in Polyantas. Very beautiful.

JEANNIE DRIVON.

- Mademoiselle Anais Molin.**—A new variety of great worth, literally hiding the plant with its lovely white flowers.
- Mademoiselle Cecile Bruner.**—Larger flowers than any of the others, perfectly double, and delightfully fragrant. Color a rosy pink, on a rich, creamy white ground.
- Miniature.**—This is the smallest of all Roses, but perfect in form, regular, compact, fairy like flowers, fully double and very fragrant. Flowers in wreaths and clusters almost covering the whole plant. The color is a cream rose, flushed with a peachy red.
- Paquerette.**—We consider this the best of all the Polyantha Roses. The flowers are pure white, about an inch in diameter, flowering in clusters of from five to fifty blooms. Very full, prettily formed, recalling the blossoms of the double flowering Cherry, and fully equals the double white Primrose in profuse blooming during the Winter. This is a variety that everyone is pleased with.
- Petite Leonie.**—The most delicate in coloring of any Rose. Pure white, faintly touched with pink. A charming Rose.
- Princess Marie Adelaide.**—Large, double, deep pink flowers, better than Pink Souper. A gem in every way.
- Perle d'Or.**—Charming and very distinct. Color a coppery gold, changing to fawn and salmon, flat rayed form, very double and elegantly perfumed.

SPECIAL OFFER—The Set of Fifteen Fairy Roses Named, for \$1.00. Any Seven for 50 Cents.

EVER-BLOOMING ROSES

... CLIMBING VARIETIES

Price of large two-year old plants of Climbing Roses named on this page, 50c each, except when noted.

In the South, or on the Pacific Coast, where they stand the Winters, nothing can compare with them for beauty of magnificent flowers. Hardy varieties marked hardy.

NOTE—The Roses on this page are the most rampant and vigorous in the whole Rose family.

If you want Roses to "get there quick," these are the ones to plant.

Climbing Bridesmaid.—Lovely deep pink. 10 cents each.

Climbing Kaiserin Augusta Victoria.—(Mrs. Robert Peary.) Hardy, pure white. Excellent. 10 cents each.

Climbing Malmalson.—Flesh color. None better. 15 cents each.

Climbing Meteor.—(Hardy.) Rich dark velvety maroon very dark and beautiful. 10 cents each.

Climbing Wootton.—Rich bright red in clusters. 15 cents each.

Climbing Paul Neyron.—A lovely deep pink Rose. Very desirable. 15 cents each.

Climbing Marie Guillot.—(President Cleveland.) Pure snow white. Very elegant. 15 cents each.

Climbing Devonensis.—White, flushed pink. 10 cents each.

Climbing La France.—(Hardy.) Satiny pink in color. Sometimes reverts back to the bush form. It is always beautiful. 15 cents each.

Climbing Belle Siebrecht.—Bright fresh pink of the largest size. 15 cents each.

NOTE.—The above Climbing Roses are sports from the varieties for which they were named. The disseminators so named them for the reason that no greater praise could have possibly been bestowed on them than to name them in honor of the parent variety. These Climbers make lovely bush Roses by simply cutting off the running branches at any height your fancy may dictate. Many of our customers prefer them to the parent varieties for bush Roses, even if they do not wish Climbers, as they are of a much more vigorous growth than the varieties they are sports from. Try them.

America.—Lovely shades of salmon and pink. 10 cts. each.

Caroline Goodrich, or Climbing General Jacqueminot.—(Hardy.) This Rose has finely formed, very double flowers, and its fragrance is most delicious. The color is the same as that of General Jacqueminot. 15 cents each.

Celine Forestier.—Deep sulphur yellow, large, full flowers, perfectly double, fine bloomer and good grower. One of the best of its class. 10 cents each.

Claire Carnot.—Buff or orange yellow, peach blossom center, medium size, full and compact flowers, delightful Tea scent. Very pretty and desirable. 10 cents each.

Carmine Pillar.—(Hardy.) A lovely carmine colored Rose. 10 cents each.

Crimson Rambler.—(Hardy.) Richest crimson. The grandest of all climbing Roses. 15 cents each.

Cloth of Gold, or Chromatella.—A clear golden yellow, large, very full and double. Highly fragrant. Much prized in the South for pillars and verandas. 10 cents each.

Empress of China.—(Hardy.) Beautiful red, changing to bright pink. Rampant climber. 10 cents each.

Fortune's Double Yellow.—(Beauty of Glazenwood.) (Hardy.) Of bronzed yellow or copper and fawn color. 10 cents each.

Gainsborough.—(New.) A hardy Rose of the greatest merit. Enormous in size, of beautiful pearl, almost white. See page 9 for description. 25 cents each; large two-year-old plants, 75 cents each.

Golden Rambler.—(Allister Stella Gray.) A lovely yellow Rose. Hardy. 10 cents each.

Gloire de Dijon.—Our Southern friends are unbounded in their admiration of this fine Rose, which is seen there in its fullest perfection, being hardy in their section, where it is used as a pillar Rose. It is noted for the great size of its flowers, its delicate Tea scent, and its exquisite shade of color, being a blending of amber, carmine and cream. One of the finest Roses on our list. 15 cents each.

Golden Chain, or Climbing Safrano.—(Reve d'Or.) A beautiful pillar Rose, being a strong climber. Color orange yellow, or deep saffron, good size, full and sweet. 10 cents each.

Gold of Ophir.—(Ophir.) Nasturtium yellow, suffused with coppery red. One of the most beautiful of the climbing Roses. 10 cents each.

Helene, the Carmine Rambler.—(Hardy.) A lovely deep carmine rose. Elegant. 10 cents each.

James Sprunt.—Deep velvety crimson, and very double. 10 cents each.

Lamarque.—Large, full flowers, borne in large clusters, pure white and double. A most beautiful Rose. A rampant climber. 10 cents each.

Mademoiselle Alfred Carriere.—(Hardy.) Extra large, full flowers, very double and sweet. Color a rich, creamy white, faintly tinged with pale yellow. Exceedingly beautiful. It is a strong, hardy climber and free bloomer. 10 cents each.

Mrs. Robert Peary.—(Hardy.) Pure white. Excellent. 15 cents each.

Marechal Niel.—A beautiful deep sulphur yellow. First size, 10 cents each; extra strong plants, 50 cents each; grafted plants, one-year-old, \$1.00; two-year-old, \$1.50; three-year-old, \$2.00.

Mary Washington.—(Hardy.) A lovely white climber. 15 cents each.

Psyche.—The new Pink Rambler. It is just as good as Crimson Rambler only lovely bright pink color. 15 cents each.

Pink Rambler.—(Euphrosyne.) Hardy. Lovely pink. 10 cents each.

Red Marechal Niel.—A cross between General Jacqueminot and Marechal Niel; flowers very large, well shaped, full, form of buds and flowers like the yellow Niel; color bright red shading to deep rose, very sweet, growth very strong. Received a gold medal at the Rose exhibition, 1897, at Frankfort-on-the-Main. 25 cents each, large two-year-old plants, \$1.00 each.

Reine Olga de Wurtemberg.—Color rosy crimson, suffused with yellow. 10 cents each.

Reine Marie Henrietta, or Red-flowering Gloire de Dijon.—A strong, vigorous grower, flowers large, full, and of fine form. Color a pure cherry red, sweet-scented. This is climbing Rose because it gives such universal satisfaction. 10 cents each.

Solfaterre.—Fine, clear sulphur yellow, large, full and double. Very sweet. 10 cents each.

Waltham Queen.—Hardy. Rich, red flowers of magnificent size. A vigorous climber. 15 cents each.

White Rambler.—(Thalia) Hardy. Pure white. 10c each.

White Marechal Niel.—Identical with the yellow Niel except color of flowers, which are pure white. 20 cents each; large two-year-old plants, 35 cents each.

William Allen Richardson.—Orange yellow, with outer petals lighter, center coppery yellow. Very rich. Rapidly becoming popular. It is a unique and lovely shade of yellow. 15 cents each.

Yellow Rambler.—(Aclata.) Hardy. Rich yellow. 10 cents each.

Zella Pradel.—Vigorous climber. Has lovely pure white buds. Flowers are full and sweet. 10 cents each.

FIVE GLORIOUS CLIMBING ROSES.

SPECIAL OFFER.—The five climbing Roses, costing 75c, sent for only 50c. The five Roses in large two-year-old plants, including a fine 50 cent plant of the *Marechal Niel*, for only \$2.00.

We here offer five of the most glorious of all Climbing Roses, each one being distinct in itself, embracing *Crimson*, *Pink*, *White*, *Yellow* and intermediate shades. Nothing like this offer has ever been made. They are all *Ever-Bloomers*, and will be sure to please you. In ordering, say "Five Glorious Climbing Roses." When you possess these Five Glorious Climbing Roses you have the very best you can get anywhere in the whole world. Try them.

EMPRESS OE CHINA, or Apple Blossom Rose.

Wonderful New Climbing Rose.

This is a new Climbing Rose, of the greatest excellence. It was brought to this country by a gentleman from Cuba, who says of it that it commences to bloom in May, and is loaded with its elegant blooms until December. Think of it! There is no other Rose like it that will bloom for so long a time. This has been the great objection to Climbing Roses, that they bloom once and then are done. But here we have a Rose that blooms continuously for over seven months in the year. It is simply wonderful. When it first opens the flowers are a beautiful red, but soon turn to a lovely light pink, and it blooms so profusely as to almost hide the plant. It is perfectly hardy, and is a vigorous grower. Don't fail to try this beautiful Rose, as it will please you. **15 cents each; large two-year-old plants, 50 cents each.**

MARECHAL NIEL.

A beautiful deep sulphur yellow, very full, very large and exceedingly fragrant. It is the finest yellow Rose in existence. It has a climbing habit, and where it is allowed to grow until it attains a large size, as it will in a few years, it yields thousands of beautiful golden yellow flowers. Especially desirable in the South. We sell annually fifty thousand of this Rose alone. We have a grand stock of this variety. **First size, 10 cents each; fine plants, 25 cents each; extra strong plants, 50 cents each. It will pay you to buy strong plants.**

NOTE.—The *Marechal Niel* has weak roots until it gets well-established. This is the cause of so much failure with this most desirable Rose. We have grafted plants that will be sure to live. **Price, one-year-old plants, \$1.00; two-year-old plants, \$1.50; three-year-old plants, \$2.00.** These are extra fine plants of this Rose. By far the best you have ever seen offered, and will be sure to please and delight you. We have an excellent stock of over five thousand strong, grafted plants of *Marechal Niel*.

MRS. ROBERT PEARY, or Climbing Kaiserin.

So favorably are we impressed with this Rose that our stock of it alone will exceed fifty thousand plants. This is by all odds

the most remarkable new Rose of recent introduction. It is an offspring of that grand variety *Kaiserin Augusta Victoria*. The flowers are extra large, full, deep and double. They are of excellent substance, and produced on long, stiff stems, like a forcing Rose. The buds are long and pointed, a remarkable feature not found in any other Climbing Rose. The color and shape of the bud and flower are identical with *Kaiserin Augusta Victoria*. Pure ivory white. The foliage is also identical. The fragrance is delicious. The most remarkable feature of this variety, however, is that it blooms continuously the first year. It grows to perfection outdoors, throwing up numerous shoots ten to fifteen feet high in a single season. **15 cents each; large two-year-old plants, 50 cents each.**

MARY WASHINGTON.

This is no doubt the most famous Rose of the century, made so by the history with which it is associated, the original Rose bush being planted by no less a personage than George Washington. It is a lovely Rose and usually comes in large clusters of the purest white, and very fragrant. It will live out anywhere, as it is perfectly hardy. A perpetual bloomer. **15 cents each; large two-year-old plants, 50 cents each.**

CLIMBING METEOR, The Grand New Velvety Red Rose.

The Brightest Colored of all Roses. It has Been Called a Perpetual Blooming Climbing General Jacqueminot.

All who know "Gen. Jack" will call to mind its beautiful, high-colored, rich, velvety red buds and flowers. Climbing Meteor is the acme of all red climbing Roses. It is a free, persistent bloomer, and will make a growth of from ten to fifteen feet in a season. In bloom all the time, as it is a true ever-bloomer. We do not hesitate to place it at the head of the list of all Roses for Summer blooming, as it will make a strong growth, and is literally loaded with its deep, rich, red flowers all the time. The flowers are much larger than the Meteor, and are richer in color. It is just the Rose to train up the veranda or around windows, where its great beauty will show up to good advantage. Don't fail to plant one or more of Climbing Meteor. **15 cents each; large two-year-old plants, 50 cents each.**

MID-WINTER COLLECTION OF EVER-BLOOMING ROSES.

ALL NEW KINDS. We have made a selection of the very best Roses for Winter blooming, embracing a wide range of color. We can recommend this collection to all who desire to grow Roses in the house during Winter. Price for the collection of six choice "Mid-Winter" blooming Roses only 40 cents.

Bon Silene.—Deep rose, illumed with bright red. A grand Winter bloomer. Very sweet.

Isabella Sprunt.—Flowers freely during the Winter. Flowers of the richest yellow color.

The Bride.—The best Winter-blooming white Rose. Planted by the million by growers of cut flowers. None finer.

Bridesmaid.—This is a fit companion for the Bride. It is also planted by the million for Winter blooming. The best deep pink Rose for this purpose.

Papa Gontier.—Deep red. Very free and very sweet.

Safrano.—The old standby for a Winter bloomer. Lovely saffron colored buds of the most delicious fragrance.

REMEMBER, this entire collection of six "Mid-Winter" blooming Roses for only 40 cents. Or these six "Mid-Winter" blooming Roses in two-year-old size for \$1.20.

The New JAPANESE RAMBLER ROSES.

ROSE GROWERS everywhere will hail with delight the announcement that we have to offer them as companions to the famous CRIMSON RAMBLER four other distinct colors of Rambler Roses. They are all hardy, and the most charming of all Climbing Roses. There is no Rose of any class or kind that will compare with *Crimson Rambler* for beauty in any respect. It is a gem. These Rambler Roses do not do so well in the far South, for the reason that their growth must be checked to cause them to bloom, and in the far South, where they grow all Winter, they are shy bloomers, but in any locality where cold weather, or frost, checks their growth they are a sight worth going far to see. **10 cents each, the seven Rambler Roses sent for 60 cents. Large two-year-old plants, 50 cents each; the seven for \$2.75.**

Crimson Rambler.—It blooms in immense clusters of bright red Roses that last for two weeks. Ofttimes these sprays of bloom are two feet in length by a foot in breadth. At first sight you will not believe it a Rose.

Yellow Rambler.—(*Agata*.) Flowers borne in immense clusters like the *Crimson Rambler*, of a decided yellow color.

Pink Rambler.—(*Euphrosyne*.) Flowers of a lovely shade of light pink.

White Rambler.—(*Thalia*.) Double white flowers. A desirable variety.

Psyche.—The new pink Rambler. A grand variety.

Golden Rambler.—(*Alister Stella Gray*) This is a new climbing Rose of decided merit, and is classed by many as belonging to the Rambler section of Roses. We know it to be a grand Rose, although not so hardy as the other varieties. You will make no mistake in buying it, as you will have a grand free-blooming yellow Rose. It is a continuous bloomer, laden with bunches of Polyantia-like buds of orange yellow. Next to *Crimson Rambler*, this variety, in our estimation, stands second. Give it protection in severe climates.

Helene.—A new Rambler with flowers of a lighter red. This is a grand carmine colored Rambler. Very beautiful.

THE RAMBLER ROSES ARE HARDY EVERYWHERE.

General
Collection of

HARDY ROSES.

These Roses Are
Hardy Everywhere.

PRICE, 10c EACH; OR WE WILL SEND TWELVE KINDS FROM THIS LIST, YOUR SELECTION, FOR \$1.00; ANY SIX KINDS FOR 50c; LARGE TWO-YEAR-OLD PLANTS, 40c EACH.

Alfred Colomb.—A bright carmine crimson; very large, full and of fine globular form.

Anna de Diesbach.—(*Glory of Paris.*)—Brilliant crimson, abraded maroon; long pointed buds, full and sweet.

Ball of Snow.—(*Boule de Neige.*)—A finely formed, pure white Rose, occasionally shows light flesh when first opening. Beautiful shell shaped petals, evenly arranged, flowers of good size.

Baron de Bonstetten.—One of the richest dark red Roses.

Baroness Rothschild.—Color a rich and lovely shade of pink, delightfully perfumed. An ideal Rose in every respect.

Captain Christy.—The color is a lovely shade of pale peach, deepening to rosy crimson. Extra fine.

Chas. Lefebvre.—A grand old red Rose. One of the best.

Cheshunt Hybrid.—Bright red illumed with crimson. Large and full; a grand variety.

Clio.—Two first-class certificates; award of merit Royal Horticultural Society. The variety is of very vigorous growth, and has large, handsome foliage. The flowers are flesh colored, shaded to the center with rosy pink; they are very large, of fine globular form, and freely produced. A grand addition to the style of Baroness, and unquestionably the finest of all Roses for flowering in pots and forcing.

Coquette des Alps.—A lovely pure white Rose. Very full and free in flower. Delicious fragrance.

Countess of Roseberry.—The color is satin pink in the center, and deepens to the outer petals to a bright rose. The feather shading gives it the appearance of two distinct colors. It has completely captivated us. Very free flowering and a good grower. Be sure and try it.

Dunmore.—Dazzling scarlet crimson of the largest size. Very sweet and always in bloom. None better.

Duke of Edinburg.—One of the old standby dark red Roses for the garden.

Earl of Dufferin.—A grand, deep, rich red Rose; large and fragrant.

Fisher Holmes.—Dark, rich scarlet, elegantly shaded with deep velvety crimson, beautiful, and extra large, full flowers, fragrant.

Francois Levat.—A very beautiful Rose. Soft china pink, delicately shaded carmine and blush, large, finely formed flowers delightfully fragrant.

General Jacqueminot.—A rich velvety crimson. A most magnificent Rose. This is the best known of all the hardy Roses, and is without a rival in fragrance and richness of color.

General Washington.—This magnificent Rose is one of the best for general planting. Colors brilliant, shining crimson, very rich and beautiful, flowers large and perfectly double.

Giant of Battles.—This is still esteemed as the very best rich red Rose. Very large, double, full and sweet. An excellent variety.

Gloire de l'Exposition Bruxelles.—Flowers are finely formed, large and perfectly double. Color a bright crimson, of velvety texture. A Rose of unusual merit. We are pleased with it.

Gloire de Margottin.—Clear, dazzling red, the most brilliant of all hardy Roses. Very fragrant. Superb.

Gloire Lyonnaise.—A pale shade of chamois or salmon yellow, sometimes passing to creamy white, tinted orange and fawn. A grand Rose.

Gustave Piganeau.—Color a beautiful shade of bright red and brilliant carmine. This is a charming new Rose. Buds and flowers of the largest size.

Her Majesty.—A Rose of immense size. Deep, glowing pink in color. By many claimed to be the largest Rose in cultivation.

John Hopper.—One of the most reliable and satisfactory Hybrid Perpetuals ever grown. Flowers are large, very regular and full. Color a brilliant rose, changing to a bright, glowing pink, shaded with rich scarlet. Very sweet and a profuse bloomer.

Jubilee.—A pure red in its deepest tone, shading to deep, crimson red and velvety maroon red in the depths of the petals. It fairly glows in its rich warmth of coloring and has a rich velvety finish all its own, containing the darkest color combined with pure color of which nature is capable.

Lady Emily Peel.—Very sweet, color white, sometimes tinged and shaded with blush.

Lady Helen Stewart.—A bright scarlet crimson, flowers fully rounded out, petals large and thick, highly perfumed, very beautiful.

La Reine.—A beautiful, clear, bright rose, fine, full form, very fragrant. It is well named "The Queen."

Louis Van Houtte.—A rich crimson, heavily shaded with maroon and beautifully formed, double flowers.

Mabel Morrison.—This is a beautiful white Rose of the largest size. Very handsome.

Madame Alfred de Rougemont.—A strong, vigorous grower, begins to bloom at once, and continues until stopped by severe freezing. Pure snow white flowers, finely tinted and clouded with pale rosy blush. Large, full and double, and borne in large clusters. Fragrant and good.

Madame Charles Wood.—A large Rose. Color deep red. Very free bloomer and very sweet. None better.

Madame Gabriel Luizet.—Clear color, Rose of deep pink. One of the prettiest of all Roses.

Madame Masson.—The flowers are large, color a deep rose or bright red, highly perfumed and free bloomer.

Madame Planter.—The ironical white cemetery Rose. This is the old standby, and is unequaled where a hardy white Rose is needed. It bears thousands of beautiful snowy white, fragrant Roses. It is as hardy as an oak.

Mademoiselle Marie Rady.—A clear, bright red, finely pencilled with rich maroon, very large, full flowers, fragrant and beautiful.

Magna Charta.—A bright, clear pink, flushed with crimson, very sweet, flowers extra large, with fine form and very double.

Margaret Dickson.—A new Rose of great merit. Pure white, of immense size. Has been awarded ten first prizes.

Marie Bauman.—Considered one of the very best dark red Roses of this medium size.

Marshal P. Wilder.—A beautiful Rose of a bright cherry red color. All praise it who have tried it.

Mrs. John Laing.—Color bright shell pink, exquisitely shaded, very free bloomer. Everybody admires this fine Rose.

Mrs. Sharman Crawford.—Deep, rosy pink, outer petals pale flesh, base of petals white. Received gold medal of the National Rose Society. Flower large and of perfect form. A new color in this section and one of the most promising of the new Roses.

Marchioness of Lorne.—A rich, fulgent rose color, shaded with vivid crimson. Charming.

Oscar II, King of Sweden.—"Oh, what a lovely black Rose." is the exclamation of all beholders. This is by far the richest Rose yet introduced.

Paul Neyron.—The old time favorite. Of immense size, often measuring five inches in diameter, lovely bright pink or deep rose. Very superb.

Perfection des Blancs.—A fine formed, pure white Rose. One of the finest and most beautiful of the white Roses.

President Lincoln.—A bright red Rose of the richest hue, large, full and fragrant. Excellent.

Prince Arthur.—A rich, brilliant crimson, very bright and striking, large, double and finely cupped flowers. One of the best Roses in our collection. In color a rich, dark crimson. Very hardy.

Prince Camille de Rohan.—This variety is always a prime favorite with everybody. Richest crimson.

Roger Lambelin.—One of the most remarkable Roses yet offered. The petals are irregular on the edges like a double Petunia. The color is glowing crimson throughout, except the edges of the petals, which are all distinctly marked with a white band, forming a sharp contrast and the most unique combination of colors known in Roses.

Salamander.—Another rich red Rose of the largest size. Very fragrant.

S. Reynolds Hole.—Said by many to be the best Rose of its color. Rich crimson.

Triumph des Beaux Arts.—A grand garden Rose, bearing its huge scarlet flowers in grand profusion.

Vick's Caprice.—This is the only hardy Rose that has any variegation. It is a vigorous grower, and bears large and fragrant flowers of bright rose, distinctly striped a rich crimson. It is altogether a most unique and pretty variety. A Rose that is sure to attract attention. We always have a large sale for this Rose.

White Baroness.—Identical with Baroness Rothschild, except the color is a pure, untinted white.

White Paony.—Flowers of the largest size. Pure white.

GENERAL JACQUEMINOT.

New Japanese Trailing, or Memorial Roses.

MRS. LOVETT.

New Memorial Rose.

A double bright pink, form of *Rosa Wichuraiana*. In every respect it is a true Memorial Rose, save the flowers. In habit of growth and foliage, hardiness and abundance of bloom it is identical with its parent, but its Roses are double, two and a half inches in diameter, of bright, rosy pink color.

ROSA WICHURAIANA.

The Single White Memorial, or Japanese Trailing Rose.

This is a new and distinct class of trailing Rose, making a perfect carpet with its creeping habit. It is very useful for permanent planting in cemetery plots, or on slopes or rockeries, as it is entirely hardy, and produces its charming white flowers in the greatest profusion during the entire summer. This Rose has come to stay, and is, without question, a decided acquisition. There are several colors distinct from this that will be offered the coming season. Try this Rose.

ROSA WICHURAIANA.

MANDA'S TRIUMPH.

Produces large clusters of well-formed double flowers of pure white, two inches in diameter.

UNIVERSAL FAVORITE.

Double flowers of a beautiful rose color, over two inches in diameter.

PINK ROAMER.

Single variety. Flowers nearly two inches in diameter. Bright, rich pink, with almost white center and orange red stamens.

SOUTH ORANGE PERFECTION.

Produces multitudes of the most perfectly formed double flowers about one and a half inches in diameter, soft, blush pink at the tips, changing into white and lasting a long time in perfection.

Price, 10 Cents Each; Large Two-Year-Old Plants, 50 Cents Each. : : : : :

Manda's New Evergreen Memorial Roses.

What Mr. Manda says: "The most remarkable achievement and improvement of a new and distinct type of Hardy Roses that has been made for a generation. The growth is remarkable for its freedom, a single plant, four years old, covering a space of two hundred and forty square feet, with long shoots, twelve to twenty-five feet in length, completely covering the ground with its bright, glossy foliage, and showy, fragrant flowers. The same plant has made one hundred and eight new growths of remarkable strength during the summer. The foliage of all is leathery in texture, shining, and not only proof against insects, but evergreen—that is, keeping the foliage all winter—a characteristic in Roses never before obtained. The flowers are produced most profusely, are all of large size, very fragrant, and can be easily used for cut-flower purposes, as much as any greenhouse Tea Rose, especially when in bud. The use of these Roses will be unlimited—for trailing or covering ground where nothing else would grow, to cover roots, stumps and stems of trees, walls and trellises, for cut-flower purposes, and also for forcing as pot plants during spring, especially for Easter."

entirely, and having the appearance of a yellow Cherokee Rose. Great acquisition to Roses, and the most striking variety of the set. 15 cents each; two-year-old plants, 50 cents each.

JERSEY BEAUTY.

Extremely vigorous grower, foliage thick, of leathery substance, flowers singly or in clusters of two to four, large, single, three inches in diameter, opening pale yellow, with clusters of bright yellow stamens, which give it a novel appearance. Fragrant, and produced in greatest profusion, covering the plant

GARDENIA.

Strong grower, with large, green foliage, flowers produced singly on stems one half to one foot long when in bud, hardly distinguishable from *Perle des Jardins*, bright yellow, and when open cream color, three to three and one half inches in diameter, inclining towards evening to perfect imitation of a *Gardenia* or *Cape Jasmine* as to shape and color, hence its name. Flowers delightfully fragrant and produced freely. A grand Rose for any purpose. 15 cents each; two-year-old plants, 50 cents each.

EVERGREEN GEM.

The most wonderful grower of the set. Not only evergreen, but growing during mild weather in Winter. Stems long-branched, rich, bronze color, covering the ground closely. Foliage fine, rich bronze color, closely matted. Flowers produced singly on stems, yellow, buff in bud, opening to almost white, two or three inches in diameter, perfectly double, and of a delightful, sweetbriar fragrance. This will be found most valuable for landscape work, as well as for cut-flower purposes. We consider this the best plant of the set. 15 cents each; two-year-old plants, 50 cents each.

SPECIAL.—One plant each of the three varieties of Evergreens for 30 cents.

Hardy Climbing Prairie Roses.

Price, 10 cents each; any three for 25 cents; large two-year-old plants, 35 cents.

These are Climbing Roses that are perfectly hardy everywhere, and are consequently of the greatest value. They can be readily trained to the height of from ten to thirty feet, as they grow with great vigor. They bloom the second year, and but once in a season, but are then loaded with splendid Roses, and are among the most beautiful of flowering plants. At least one of these hardy climbers should be found in every Rose garden north of Tennessee. The flowers are produced in large clusters. When it is desired to cover walls, unsightly buildings, etc., with Roses, none will be found to do the work so efficiently as varieties of the Prairie Roses.

Baltimore Belle.—Pale blush, variegated carmine rose and white, very double. It flowers in beautiful clusters, the whole plant appearing a perfect mass of bloom. One of the very best Climbing Roses.

Bennett's Seedling.—An Ayshire or Scotch Rose, and a vigorous runner. Flowers are white, very double and fragrant, and borne in great profusion.

Caroline Goodrich, or Running General Jacqueminot.—This new hardy Climbing Hybrid Tea Rose has finely formed, very double flowers, and its fragrance is most delicious. The color is the same as *General Jacqueminot*. It makes a growth of from twelve to fifteen feet in a season.

Greville, or Seven Sisters.—Flowers in large clusters, and varies in color from white to crimson.

Milledgeville, or Pride of the South.—A splendid variety. Color a rich, satiny pink, very fresh and beautiful. Fine, large, globular flowers, full, regular form, very double and sweet. A profuse bloomer and quite hardy.

Queen of the Prairies.—Flowers are very large and of peculiar globular form. A bright rosy red, changing to lighter as the flower opens. Of very strong, rapid growth.

Russell's Cottage.—Dark, velvety crimson, very double and full, a profuse bloomer and strong grower. A very desirable Climbing Rose.

Tennessee Belle.—Flowers a bright, beautiful pink. It is more slender and graceful in growth than any of the other varieties.

Dundee Rambler.—The old-fashioned Scotch climbing Rose. Entirely hardy, bears elegant, rich, red Roses of the largest size. This we think the best of the hardy climbers.

TWO LOVELY MOSS ROSES.

MOSS ROSES ARE SHY BLOOMERS, BUT VERY BEAUTIFUL.

Glory of Mosses.—This is one of the most beautiful Mosses imaginable. The open flowers are very bright and of most delicious fragrance. Color a rich, glossy pink, tinged crimson, large and globular. The buds are almost hid with beautiful green moss. 20 cents each; large two-year-old plants, 50 cents each.

White Bath.—This is unquestionably the Queen of all Moss Roses. Extra large, full, very double, flowers of the purest snowy white, and comes in large clusters, delightfully perfumed, buds thickly covered with lovely deep green moss. A beautiful Rose. 20 cents each; large two-year-old plants, 60 cents each.

Lansdowne Park Collection of Sun-Proof Bedders.

The Twelve Best Double Geraniums; 10 Cents Each or the Twelve for 75 cents.

The Twelve Double Geraniums embraced in this collection we have selected from our large collection of over two hundred kinds, as the very best. In fact, there are no better Geraniums than the ones here named. Say "Lansdowne Park Collection of Geraniums" when you order, and we will understand what you want.

Bruant.—Color of the flower is a light vermilion red of a most pleasing shade. The flowers are absolutely perfect in shape, contour and make-up, trusses exceptionally large and borne in immense spherical balls, often measuring eight inches in diameter. It does finely in the open ground, and is perfectly reliable as a bedding Geranium of the highest merit. It makes a compact, dense growth, and has all the qualities that go to make the perfect bedder that it is. Fine also in pots. The very finest scarlet bedder.

La Favorite.—In this Geranium, we believe we have the finest double white Geranium in cultivation. The flowers are borne in large trusses, of the purest snow white, retaining this pure whiteness even in the height of summer, and for winter blooming they are all that can be desired. Do not fail to add this charming variety to your collection.

Centaur.—The new mammoth Centaur Double Geranium is the best large-flowering double pink Geranium in cultivation. Any one seeing a specimen truss cannot fail to become enthusiastic over it, pronouncing it the largest and finest Geranium in cultivation. The flowers are borne on bold trusses of enormous size, almost spherical, and as many as sixty florets have been counted on a single truss. The color is the richest deep pink, shading near the base of the petals to light pink,

nium and a good one.
Emerson.—Distinct, rosy salmon; a decided acquisition; unexcelled.
John Doyle.—This is claimed by all Geranium growers to be the very best bright red bedding Geranium extant. None better.

the base of the upper petals creamy white.

S. A. Nutt.—This is the darkest and richest Geranium grown. It is a very bright, dark, deep, rich, velvety maroon, an excellent bedder and a perfect pot plant. One that must find its way into every collection.

Alphonse Ricard.—Color bright vermilion scarlet. The trusses are so freely produced as to nearly conceal the foliage.

Beaute Pottevine.—This variety is conceded to be the best semi-double salmon pink Geranium in existence. A most profuse bloomer.

Firebrand.—The brightest richest scarlet; none better.

Hoff Beach.—Deep magenta; the best bedding Geranium of its color.

Prof. Poirault.—This is a deep sofferino in color. Has a splendid habit and the color is decidedly unique and bright for a Geranium.

Queen of the Fairies.—Clear apricot salmon shading towards the center to a white eye. A most beautiful Geranium.

The Twelve Best Single Geraniums for \$1.00.

"WASHINGTON PARK" COLLECTION OF SUN-PROOF BEDDERS.

This collection of Single Geraniums is composed of the very best varieties from a careful selection of our unrivaled collection of one hundred and fifty kinds. You should try them. They will not disappoint you. Simply say "Washington Park" Collection of Geraniums, and we will understand what you want.

Price, 10 cents each; or the twelve for 75 cents.

Athlete.—Truly a wonderful Geranium. The individual florets are very large; color dazzling crimson.

Clyde.—Rich carise red. A grand bedder and a Geranium that pleases everybody.

Francis Arrago.—Large trusses composed of large-petaled, very round, perfectly formed flowers. Color a brilliant, deep, apricot salmon. Very free blooming. One of the best of single Geraniums and undoubtedly it has a brilliant future as a bedding plant.

Granville.—Clear rosy pink. Stands the hot sun better than any other single pink and is invaluable as a bedder. Best of its class.

Gen'l Grant.—The old standby as a bright red bedding geranium. It is a mass of scarlet all Summer. Has no superior.

Hoff Eichler.—Very large trusses of rosy scarlet with shadings of maroon and crimson. Trusses held well above the foliage. In color and profusion of bloom a grand Geranium.

J. P. Cleary.—Enormous trusses; color a most brilliant shade of deep orange scarlet. Color so brilliant as to completely dazzle the eye. This is the freest blooming single scarlet Geranium that we have had on our place for many years. The best single scarlet Geranium for bedding purposes.

Snowdrop.—Enormous sized trusses of pure snow white, retaining its pureness the entire season. In freedom of bloom, splendid habit and growth of plant this variety resembles the excellent double white variety La Favorite. We believe this to be the very best single white up to date.

Madonna.—Color as delicate a pink as Rose Mme. Gabriel Luizet, deepening to a soft peachblow, a mingling of shades heretofore only found in the "Lady Washington" class. A perfect single Geranium of an entirely new shade.

Mary Hallock Foote.—A light clear salmon, blending into darker shades, the yellowish salmon gives it a special delicate shade seldom seen in Geraniums.

Sonvenir de Mirande.—It is entirely distinct from any other variety known, and is quite different from the usual marked varieties that have from time to time made their appearance. It has round florets, upper petals cream white, with a distinct rosy pink border, lower petals salmon rose, streaked with pure blue. A most novel color. It is extremely free flowering and produces fine trusses of magnificent blooms.

Gertrude Pearson.—Color pure rose pink. One of the most attractive and pleasing Geraniums grown.

PANSY, - OR LADY - WASHINGTON GERANIUMS.

We offer five of the choicest new kinds of these, the most beautiful of all GERANIUMS. Price, 25 cents each; or the five varieties for \$1.00. You cannot buy these charming varieties as cheaply elsewhere.

Captain Ratkes.—A grand ruffled or fringed variety with very large flowers, borne in large, fine-shaped trusses. Color bright red, with lighter center, with heavy maroon blotches in upper petals.

Mrs. Robert Sandford.—(*The New Double White.*) The flowers are three inches across, of the purest snow white, and perfectly double and very free in bloom. You cannot imagine anything prettier.

Madame Thibaut.—(*The New Double Pink.*) The flowers are three inches in diameter, perfectly double, of the brightest pure pink, beautifully ruffled edges. Very free in bloom.

Victor.—The flowers are a bright cherry red, with white at the base of each petal, the two upper petals are dark crimson maroon. The flowers are of immense size and very freely produced.

New Ever-blooming Pelargonium, Dorothy.—It is a perpetual blooming variety, usually commencing to bloom in December or January, and continuing throughout the Spring and Summer. The throat and edges of the petals are pure white, each shaded toward the center with rich carmine pink, with a glowing crimson blotch on each. We have always been unable to supply the demand, but now have a fine stock of plants to offer.

SWEET-SCENTED GERANIUMS.

Price, 10 cents each; three for 25 cents.

Apple-Scented.—Foliage smells like ripe apples. An old-time favorite.

Balm-Scented.—Delicious balm fragrance.

Nutmeg-Scented.—Small leaves with nutmeg perfume.

Rose-Scented.—Two kinds, broad leaf and cut leaf.

Oak-Leaved.—Resembling oak leaves, black center, green bordered.

GOLDEN BRONZE - LEAVED GERANIUMS.

Price, 10 cents each.

Bronze-Bedder.—New. Brightest and best of all. Grand.

Crystal Palace Gem.—Golden-yellow margin, central disc green.

Exquisite.—Large chocolate zone, golden yellow center.

Marshal McMahon.—Golden yellow zone of dark chocolate.

Zulu.—A bright yellow leaf, with almost black zone.

The set of five bronze-leaved Geraniums for 40 cents.

PANSY GERANIUM.

OUR SPLENDID NEW IVY GERANIUMS.

These Geraniums are fine for baskets and vases, and are especially fine for pot culture in the house. They have the handsomest flowers of all the Geraniums. One of our local florists who grows for the home market a house full of these new Ivy Geraniums says that he sells as many of them as all other Geraniums combined. This speaks volumes for their loveliness. Try them.

New Double Ivy Geranium, Comtesse Horace de Choiseul.—A fit companion of "Joan of Arc." The plant is vigorous, leaves without zones, flowers very large, two inches across, double and imbricated, in good trusses. Color a bright, golden salmon. We have no hesitancy in saying that this is the richest-colored flower of any grown. All who see it say, "Is it possible that is a Geranium flower?"

New Double White Ivy Geranium, Joan of Arc.—This is one of the most beautiful plants that it has ever been our privilege to offer. The flowers are perfectly double, white as snow, and literally cover the plant when in full bloom. The foliage is extremely handsome, the dense, glossy green leaves making a most effective background for the great cluster of snow white flowers. The foregoing was our description of last year, and another season's trial makes us heartily endorse it.

IVY GERANIUM

New Double Scarlet Ivy Geranium, Peter Crozy.—A grand hybrid between the Zonals and Ivies, having the foliage of the former, but very heavy in texture, and while the forms of truss and florets are found only among the Ivies, the color is a soft, bright scarlet, with veinings of maroon. A most distinct and pleasing variety, being the nearest approach to a scarlet yet introduced. Habit of plant very dwarf and compact, and one of the most prolific flowering sorts in existence.

New Double Ivy Geranium, Souvenir Charles Turner.—One of the handsomest Ivy Geraniums ever introduced. Flowers two and a half inches, in trusses six inches across. The color is a deep, bright pink, approaching scarlet in color, the upper petals feathered maroon. Quite double. Awarded numerous certificates.

Incomparable.—A most beautiful variety, producing flowers of the largest size, very regular in form, quite double. Color a lovely shade of rosy carmine. No finer.

New Double Ivy Geranium, Gallice.—Another grand sort. One of the most remarkable of recent introduction. The trusses are of immense size, flowers very large and double, and of a most charming shade of lovely rosy pink, varied with lilac. A magnificent variety.

Price, 10 Cents Each; The Set of Six for 50 Cents.

Ever-Blooming Dwarf Cannas

"SUPERB" COLLECTION.

These are the best varieties in cultivation. Always in bloom. They are not like the old varieties of Cannas that seldom flower, but are always covered with their large, handsome trusses of bloom. Be sure and give them a trial.

Price of Plants to Bloom This Spring and Summer, 10 Cents Each.
Any Six for 50 Cents. The set of Twelve for \$1.00. : : :

CULTURE.—The soil can hardly be too rich and porous. Equal parts manure, loam and sand, with a little peat, form best mixture. Plants must be kept in a growing temperature of sixty degrees. Liberal supplies of manure water are of great benefit. Always when growing keep well watered. : : : : : : : :

THESE ARE THE VERY BEST CANNAS GROWN. NONE BETTER.

Austria, The New Giant Flowered Canna.—It is, in truth, a giant, with flowers six to eight inches across, a giant in its superb growth, young plants set out in June forming dense spreading clumps, with twenty to twenty-five stems six feet high, and every stem surmounted with a spike of its glorious, golden, lily-like flowers, a giant in its grand foliage, a magnificent giant in its every attribute.

Alsace, The White Canna.—In this variety we have the nearest approach to a pure white Canna. A wonderfully free bloomer and a fine, erect grower. The flowers at first opening are a light sulphur yellow, changing to creamy white. A grand variety for contrasting with darker colored sorts.

Alphonse Bouvier.—This is the grandest of all Cannas for outdoor bedding. It is a very luxuriant grower in good ground. It begins to bloom very early, and is one continuous mass of crimson the entire season. The tips of the shoots are surrounded by immense clusters of bright crimson flowers of the very largest size, and nothing can excel their brilliancy.

Burbank.—Color rich canary yellow, with a few carmine spots in throat. Giant orchid-like flowers, the upper petals measuring fully seven inches across. It is a vigorous growing plant, attaining a height of five to six feet, with leaves of a leathery texture, shiny and very large.

Charles Henderson.—A grand variety of a fine crimson color that has become very popular. While it is not quite as rich in color as Alphonse Bouvier, its habit of growth is much more compact, rarely exceeding three and one-half feet in height, which makes it a desirable companion to such varieties as Florence Vaughan and Madam Crozy.

Chicago.—Grand; vermilion-scarlet, flowers very large and flat, petals broad and five in number, composing a magnificent flower in a very large truss, erect in growth, foliage a bright green. The heavy texture of the bloom renders them very durable as compared with most varieties.

Edendale.—Without the least hesitation we pronounce this the best of all dark-leaved Cannas for bedding that has yet come under our notice. Flowers are of good size, and borne in compact heads, and in such profusion that a bed of them is a

perfect mass of color, unequalled by any othersort. The color is a deep currant-red, of a peculiar and pleasing shade, and different from any other.

Florence Vaughan.—Undoubtedly one of the finest yellow spotted varieties yet sent out; in color it is of a bright, rich golden yellow, spotted with bright red; the flowers, which are of the largest size, of great substance and of perfect form, are borne in large heads and in the greatest profusion; the foliage is massive and of a rich green color; the plants are from three and one-half to four feet in height.

Mme. Crozy.—Three and one-half feet. The flowers of this well known and very popular variety are of a dazzling crimson-scarlet, bordered with bright golden yellow, and produced in the greatest profusion on large branching stems the entire summer, in large trusses set well above the foliage. It can be had in bloom the year round, and is admirably adapted to pot culture. The plant is of vigorous

growth, yet dwarf in habit; the foliage is of a rich, cheerful green and very massive. A remarkably free bloomer, and all things considered, still one of the best for bedding purposes.

Maiden's Blush.—It is pronounced by experts pure soft pink, an indescribable tint of day-dawn loveliness, entirely different from all others. Everyone says it is one of the sweetest and most lovely shades ever seen. It is an immense bloomer, and bears splendid trusses of exquisite lily-like flowers continuously all through the Summer and Fall till killed down by frost. It is a neat, compact grower, with handsome foliage, and one of the best kinds for bedding; can also be grown nicely in pots or boxes. The only variety of its color yet introduced.

Paul Marquard.—The individual flowers are large, and the flower spike very large, each flower standing out separately by itself. The flower is as fine as the finest Orchid. The color is a bright salmon, with a carmine tint.

Queen Charlotte.—New and beautiful. "A perfect symphony of crimson and gold." Magnificent large flowers of the most perfect form, rich scarlet crimson, distinct golden band around each petal. Very large trusses of bloom, nine to ten inches in height, from fifty to sixty buds and flowers on a single truss, flowers nearly five inches across.

“PHENOMENAL” Collection of FUCHSIAS.

❦ ❦ ❦ ❦

These are the very best varieties of the FUCHSIAS, and embrace all the colors known in this beautiful flower. Be sure and try them. In ordering, say, “Phenomenal” collection of FUCHSIAS, and we will understand what you want.

❦ ❦ ❦ ❦

STORM KING.

Price, 10 cents each; three for 25 cents; or the sixteen for \$1.00.
 : : : Any eight varieties for 50 cents. : : :

New Double Perpetual - Flowering, Weeping Fuchsia, Storm King.—This grand plant is of the most beautiful weeping habit. The branches, drooping as they do, lend the plant a charming grace which is rarely found. The buds, for two weeks before they expand, are balls of glowing scarlet crimson. The flowers continue to grow larger and larger after they expand. The sepals are of the same glowing scarlet crimson as the buds, while the large double corolla is of a delicate waxy whiteness, elegantly penciled with a deep and bright crimson. Its flowering qualities are most remarkable, for it is never out of bloom when it is in a healthy condition.

Sapaly Freres.—Color of sepals a bright coral red, corolla violet and carmine red. One of the most beautiful and distinct of the Fuchsias.

Crepuscule.—Superb double variety, a fine, straight grower, plants of good shape, color of tube and sepals dark red, corolla violet, striped with rose.

Champion of the World.—Large double flowers, well reflexed, and of a most beautiful coral-red, corolla most intense bright, dark purple.

Bland's New Striped.—The tube and sepals are a glowing crimson, corolla a rich, plum-colored purple, regularly and distinctly striped red rose.

King of Fuchsias, “Phenomenal.”—The flowers are of enormous proportions, being very double, very broad and of great substance, well reflexed, of a most beautiful coral-red, corolla an intense bright sky blue. This is without comparison as a novelty. The largest Fuchsia grown.

Admiral Courbet.—A beautiful sort with enormous double flowers. Corolla a peculiar shade of deep violet, tube and sepals a bright red. A splendid variety.

Esmeralda.—One of the grandest and most distinct varieties. Tube is short, sepals brilliant red, corolla very large and brilliant, color a beautiful lilac, changing to a clear rose.

Rosaln's Patrie.—A splendid white variety, in the style of that fine variety, Colonel Dominie. A wonderfully free bloomer and quite early. Tube and sepals rosy carmine, corolla of the purest white.

General Roberts.—A remarkable, beautiful variety of drooping habit. The blooms are from four to five inches in length, borne in large clusters, single corolla, of a rich plum color, tube and sepals crimson.

President F. Gunther.—A grand sort, with large, double flowers, the sepals delicate carmine. The corolla a bright lilac, darkened with violet. A beautiful and fine variety.

New Double White Fuchsia, White Giant.—The largest and best white Fuchsia grown. Fine form, very double. Color a pure white. This is a better grower than “Storm King,” and superior to that variety, or in fact any of the white Fuchsias. We find it to be an excellent Winter bloomer. It gives us much pleasure to offer this grand Fuchsia.

Jules Monge.—New. Lovely sky blue, double corolla, banded with scarlet.

Jupiter.—New. One of the prettiest of all Fuchsias. Large, double flowers, of a clear magenta, with dark crimson veins. Don't fail to try it.

Monsieur Thibaut.—A splendid variety, with large, handsome foliage of a delightful green tint. The foliage alone would make it worthy of cultivation. The flowers are single, of unusual size, sepals dark red, corolla rose vermilion, tinted violet.

Black Prince.—This is, without question, the very finest Fuchsia grown for the amateur to cultivate. It makes a shapely bush, is robust in growth, free from disease and insects, and is probably the freest in blooming. We have seen specimen plants six feet in height and four feet across loaded with thousands of bright buds and blossoms of a beautiful waxy carmine or pink color. Certainly a plant of easy culture.

MONTHLY, OR
EVER-BLOOMING.....

Carnation Pinks.

The Latest Splendid Novelties. "Peerless" Collection of New Carnations.

Price, 10 cents each; any three for 25 cents.

The entire set of eight "Peerless" Carnations for 50 cents.

The Divine Flower.

JACK FROST. This variety is the largest white Carnation in cultivation. Often measures four inches in diameter. The flowers are of the purest white, with petals of great substance, making it one of the very best.

Fairy Princess.—This is the most beautiful Carnation that we know of. The flowers are very large and perfect in shape. The color is a pure snow white, delicately penciled with bright crimson. Elegantly fringed. A charming variety.

Bon Ton.—This is by far the darkest Carnation ever seen, and at the same time the most abundant bloomer. Brilliant dark red, shaded with richest maroon, fringed petals, nearly every flower being on a long stem. This variety surpasses in richness of color the most perfect Jacquemint Rose.

Yellow Jacket.—The color of the flower is orange, flaked, and is broadly striped with delicate carmine. Very bright and attractive. Very fragrant. It has proved one of the freest bloomers within our knowledge, single plants often carrying forty to sixty buds and blossoms at one time. One of the very best varieties.

Field of Gold.—This is a pure yellow Carnation, of strong growth and very profuse flowering. There is no stripe at all in it, being a straight out and out deep, rich, golden yellow, without any other color whatever, under any circumstances. The florets are large and double, as in Buttercup, and, taken all in all, it is the very best yellow Carnation out.

Della Fox.—Its color is almost indescribable. Of a rosy orange shade, striped and flaked with carmine, never bursts its calyx, is very free and early flowering, and can always be cut with a long stem, a most desirable feature in the colored Carnation nowadays.

Abundance.—Flowers very large and perfect in form. Color a bright rosy pink, with salmon shading when the flowers are fully expanded. A very healthy grower and remarkably free bloomer. Plant dwarf, growing about fourteen inches high. This we consider one of the best pink varieties ever offered.

Jubilee.—Very dwarf, and of a nice, bushy growth, forcing very long flower stems, each individual flower possessing a stem varying from three to eight inches in length. It has perfectly formed flowers. Color a rich, dazzling scarlet. We unhesitatingly recommend this sort.

CARNATION, JACK FROST

"Excelsior" Collection of... NEW CARNATIONS.

Price, 10 cents each; any three for 25 cents. The entire set of eight "Excelsior" Carnations for 50 cents.

Genevieve Lord.—As large as the largest light pink ever offered. A few blooms last season measured nearly four inches. It has taken first prizes wherever offered.

Mrs. Thomas Lawson.—No plant of whatever kind has ever received so much description and free advertising by the newspapers of the whole country as this sensational Carnation. It was sold for \$20,000. The size is enormous, of a true pink color. Altogether a twentieth century Carnation. Everything has been claimed for it and our own opinion is that it will justify the claim.

Whitecomb Riley.—The ground color is the faintest blush, lightly penciled in soft pink. The bloom is fully in proportion, exquisitely beautiful in form. One of the grandest of all Carnations.

Amazingdy.—The "Pink of perfection." Probably the most beautiful Carnation yet introduced, and must become very popular. Flowers are a pure snowy white, and marked and shaded with rosy pink and blue, perfect form, never bursts. It is the strongest and sweetest scented Carnation we know. A perfect beauty.

Painted Lady.—Another grand Carnation, with enormous sized flowers, often measuring three and a half inches in diameter, at the same time being one of the freest blooming Carnations we have ever seen. Ground color of flower the purest white, very handsomely penciled with richest crimson.

Alaska. This beautiful white Carnation is remarkable for its extremely vigorous growth, very large flowers, perfect shape, purest white. Indeed, for size and freedom of bloom, purity of color, which is immaculate, sweetness of perfume that is delicious, and vigorous growth, this variety has no equal. The best white by far out of a dozen varieties we have of that color.

Rose Queen.—One of the most fragrant Carnations we have seen. Color a pure, soft rose, a most continuous bloomer and distinct in color from any other sort offered. Greatly admired by all who have seen it growing here.

Triumph.—This variety has been greatly admired wherever it has been seen, for its dwarf habit, being a beautiful, pure, rich pink, flowers large size and very freely produced. Plant of grand habit and vigorous growth. It is a superb variety.

Both the "Peerless" and "Excelsior" Collections of Carnations, sixteen most distinct sorts, for only 50 cents. You cannot duplicate these for this sum elsewhere.

New Chrysanthemums

THE CREAM OF THE WORLD'S COLLECTION.

Every Chrysanthemum on this page has won a gold medal. Indeed, some of them have won several. You can order from this list with the assurance that any one of them will be a beauty. The price we offer them at is very low, as you will see by comparing them with any flower catalogue published. / / / / / / / /

Price, 5 cents each; any twelve, your selection, for 50 cents; twenty-five for \$1.00.

Autumn Glory.—This has proved a grand addition to the list of good pink varieties which are always scarce. The form, size, depth, foliage and stem are all perfect. The color is salmon pink, bright and deep. A cup winner.

Abraham Lincoln.—Rich cream color, the petals are trumpet shape, and are arranged to form a perfect ball. A sensational variety.

Admiration.—A soft, pure creamy white, each petal tipped with shell pink, petals of irregular lengths, like satin ribbon.

Beau Ideal.—Bright rose pink, without touch of lavender shadings. The form is somewhat flat, incurved shape; the outer petals horizontal, showing the bright pink, the incurving center showing a lighter shade.

Challenge.—A perfect globe of deep golden yellow, of immense size. Has won gold medal and over fifty first prizes.

Exquisite.—The petals are upright, and show the bright pink shadings at their best. In color it is a deep, clear pink.

Fisher's Torch.—A pure, deep scarlet. An entire new shade, quite full and flat, all of one tone of color. This is something distinctly new.

Good Gracious.—The color is unique, being a delicate shade of peach and pink throughout.

Golden Wedding.—A deep, bright, golden yellow, of shining texture, very large in size. A fine exhibition sort.

Gorgeous.—Deep golden yellow of the richest hue, of immense size. The petals are feathery, incurved and whorled. One of the finest, and no collection is complete without it. It is indeed gorgeous in its color and bearing.

Gettysburg.—Another gold medal variety. Of the richest crimson, and of enormous size. A great favorite.

Her Majesty.—The sensational variety of the year. It is an enormous globular Japanese, with broad, incurving petals. White, shading to lemon.

Interocan.—An ivory white, very massive in build. This variety is in every prize winning collection. None better.

King's Daughter.—Fine, pure snowy white, center petals irregularly drooping. Stout stem, very showy; loose, pure Japanese style, flowers very large.

Kioto.—Very large, incurved yellow, strong, free grower, extra fine. Good for cut bloom. Does well as large specimens.

Latest Fad.—A mammoth bloom with cord-like petals eight inches in length. Color a rich yellow, at times mottled and splashed with bronze and crimson.

Lillian E. Bird.—A beauty in every respect. Of the very largest size, long, tubular petals, of perfect form, producing flowers which are twelve inches in diameter. The color is an exquisite shade of "shrimp pink."

Lorna Doone.—This variety is of mammoth size, purest snow white in color. Very broad, heavy, deep flower, measuring fourteen inches in diameter.

Mikado.—Exquisitely fringed flowers of crimson and gold, curved and plated, of irregular form. It is gorgeous beyond description. Will be the center of attraction wherever placed.

Mutual Friend.—Very nearly spherical in form, almost white in color, only showing a touch of pearl pink at base of petals.

Mrs. John Wanamaker.—A superb variety, of perfect incurved form, resembling a flat ball of wood. Color pink and white, nicely blended.

Maude Dean.—An immense pink variety, finely incurved petals, broadly shell shaped. One of the largest flowers exhibited in the Fall shows. Almost a pure self pink.

Mrs. Winthrop Sargeant.—Brilliant straw color, incurved, carrying its flowers on long, stiff stems. Very large, if not the largest in this line of color. A large, grand flower.

Mrs. E. G. Hill.—The blooms are eight to ten inches in diameter. The color is a delicate lavender pink, petals incurved. The display of this variety at the World's Fair attracted all passersby, and was admired greatly.

Mrs. Langtry.—A perfectly formed flat flower, of unusual size and perfection. Snow white in color, with broad bands or ribbon petals. Altogether one of the very finest varieties.

Marle Louise.—Beautifully recurved, white, with interlacing petals, outer ones reflexed closely around the stem, inner ones building up full to the center, forming a plummy globe.

Mrs. W. K. Vanderbilt.—One of the finest in the entire Chrysanthemum family. A grand, large flower of the purest white. Seen in splendid shape in the Fall shows.

MRS. E. G. HILL.

Major Bonaffon.—Soft, clear, primrose yellow, full in center; eight inches in diameter and nearly as deep.

Mermaid.—Very delicate pink, perfectly incurving, broad petals, extremely delicate in color and finish. Extra good.

Phenomenal.—Color clear chamois yellow, shading to pink at the base of petals. An enormous flower. Bold, but not coarse.

Silver Wedding.—The purest white; very broad petals, reflexed. Probably the most distinct variety of the season.

The Queen.—A grand double white, of fine size and great substance, very rounded in form, incurving and full. By far the best of its style; and a prize winner wherever shown.

Vivand Morel.—This grand variety has literally leaped into popularity. Flowers so large as to startle you. The color shades from a few rows of lavender pearl to the richest pink.

Western King.—In the entire Chrysanthemum family there is no grander white variety, no matter when it blooms. A perfect ball of snow.

"Exhibition" 1901 Set of Chrysanthemums

Price, 10 cents each; the set of ten Exhibition Chrysanthemums for 75 cents. Any five for 40 cents.

The Chrysanthemums named on this page are the choicest productions from all exhibitions and sources for the year 1901. Our patrons can rely on them being each and every one the very choicest color, as awards are not given until the judges are satisfied that they are better than any existing sorts. So, if you wish to be up to date, and have the very best, order this set.

Sunstone.—Bright yellow, shading to red at the base; of enormous size.

Golden Trophy.—The largest yellow in existence. We have no hesitation in saying we regard this the best of all yellow Chrysanthemums.

Defender.—This is the richest, deepest crimson variety we have ever seen, and excels in its color as Golden Trophy does in yellow.

VASE OF CHRYSANTHEMUMS

Sundew.—Color a beautiful bronze or Indian red. A grand exhibition variety.

Western King.—In the entire Chrysanthemum family there is no grander white variety, no matter when it blooms. A perfect ball of snow.

Her Majesty.—The sensational variety of the year. A globular Japanese variety. Color white, shading to pale lemon.

Lorna Doone.—Of mammoth size, white in color. A very broad, heavy, deep flower; very distinct and beautiful.

Belle of Castlewood.—Flowers of immense size, almost spherical. Soft lemon yellow suffused with pink.

Marquis Mortemarte.—A superb Mermet rose pink. Cup shaped. Solid to the center, immense in size, often twelve inches in diameter.

Gorgeous.—Deep golden yellow of the richest hue; of immense size. The petals are feathery, incurved and whorled. One of the finest, and no collection complete without it; it is indeed gorgeous in its color and bearing.

PALMS.

COCOS WEDDELIANA.

Palms are now indispensable for all decorations, whether in or outdoors, and for tropical bedding. They are easily grown, and increase their value two to fourfold every year.

NOTICE.—It may be well to state here that young Palms do not resemble the illustrations given, as they do not show their character leaves until the second year, so that when you get your small Palm plants, and see long, narrow leaves, instead of the character leaves as shown in the illustrations, do not think the wrong kind has been sent you.

The following is a select list of rare and handsome varieties that can be recommended for apartments, conservatories, decorations or vase plants during the Summer. They are all grand plants, and of the easiest culture.

SPECIAL OFFER.—We mail four distinct Palms, small plants, for 50 cents.

SEAFORTHIA ELEGANS.

A most useful conservatory or lawn plant. Leaves from two to ten feet long. Largely grown on account of its hardy constitution and useful and graceful character. They soon develop into noble specimens.

Nice young plants.....50 cents each.

CHAMEROPS EXCLISA.

A handsome fan leaf Palm of rapid, easy culture. Very valuable and useful for outdoors during the Summer.

Small plants.....15c. each.
4-inch pots, fine plants...5 to 6 leaves...75c. each.

COCOS WEDDELIANA.

The most elegant and graceful of all the smaller Palms, its slender, erect stem is freely furnished with its graceful, arching leaves of a rich, green color, admirable for fern dishes, as they are of slow growth and maintain their beauty for a long time.

3-inch pots, 8 to 10 inches high, 50 cents each.

WASHINGTONIA FILIFERA.

A beautiful Palm. It has elegant dark green, fan-shaped leaves, from which hang thread-like filaments. We have only small sized plants of this Palm.

Nice young plants.....10 cents each.

LIVISTONIA ROTUNDFOLIA.

The Miniature Fan Palm.

One of the prettiest Palms. Especially suited for table decoration. The foliage is similar to that of Latania Borbonica, but smaller and gracefully recurved, forming an almost globular plant. Always scarce. Admired by everybody.

LIVISTONIA ROTUNDFOLIA.

Livistonia Rotundifolia Plants,
four-inch pots, four to five leaves,
ten inches high, 75 cents each.
Smaller plants, 50 cents each.

PALMS--Continued.

PHENIX RECLINATA.

ARECA LUTESCENS.

This majestic Palm is without a peer for strength and elegance combined. Its dark, glossy, green leaves are gracefully curved on slender stems, and the entire foliage is gracefully disposed. The trunk and stems are a golden yellow, irregularly spotted with bronzy green, giving it a peculiar charm. The built up plants of this Palm, that is, three plants in a pot, are very handsome and deservedly popular.

Height Inches.	No. of Leaves.	Price Each.
12 to 18.....	5 to 6.....	.75 cents.

CYCAS REVOLUTA.

Sago Palm. These are magnificent plants of noble, majestic habit and most impressive. They are probably the most valuable decorative plants grown, both for lawn and house decorations. Their heavy, glossy, deep green fronds resist alike the gas, dust, dry heat and cold to which decorative plants are frequently exposed.

No. of Leaves.	Inches Long.	Price Each.
6 to 8.....	12 to 15.....	\$1 50
8 to 10.....	18 to 20.....	\$2 25
12 to 15.....	18 to 20.....	\$3 50

LATANIA BORBONICA.

The well-known Chinese Fan Palm. This is one of the most exquisitely graceful among Palms. Its wide-spreading, gracefully arching leaves are elegant and effective for apartment decorations. It is considered the handsomest and most valuable of all the Palms.

No. of Leaves.	Height Inches.	Price Each.
1 to 2.....	8 to 10.....	\$ 40
4 to 5.....	20 to 25.....	\$1 50
4 to 6.....	24 to 30.....	\$2 50
5 to 7.....	36 to 40.....	\$3 50

CYCAS REVOLUTA.

KENTIA BELMOREANA.

KENTIA BELMOREANA.

This is one of the finest pot plants imaginable, and the easiest to grow of any of the Palm family. Being almost hardy, it is not injured by slight changes in temperature, and its stiff, glossy leaves enable it to stand the dry, hot air of the living room without injury. The leaves are a deep, glossy green, fan shaped, split deeply into segments. This is, without exception, the most hardy of its class. Very graceful for table decoration. It is scarcely equaled, and were we to select one Palm only it certainly would be a Kentia.

Height Inches.	No. of Leaves.	Price Each.
18 to 20.....	3 to 5.....	\$1 00
18 to 20.....	4 to 6.....	\$1 25
20 to 25.....	4 to 6.....	\$1 75
30 to 36.....	5 to 6.....	\$2 50
36 to 40.....	6 to 7.....	\$3 50

PHENIX RECLINATA.

One of the hardiest of the Date Palms, with dark green, feathery foliage, of strong growth, and is especially valuable for outdoor decoration, as it stands sun and wind without the least damage, even in most exposed positions. **Young plants, 30 cents each.**

No. of Leaves.	Height Inches.	Price Each.
3 to 4.....	25 to 30.....	\$1 50

PHENIX CANARIENSIS.

This is the true Date Palm. **Small size, 25 cents each.**

No. of Leaves.	Height Inches.	Price each.
6 to 9.....	25 to 30.....	\$3 50

General Collection of Plants.

ABUTILON. CHINESE BELL FLOWER.

Price, 6 cents each, except where noted.

Souvenir de Bonne.—New. One of the most valuable novelties of recent years. Totaly distinct. It is a very strong grower. The leaves, a beautiful green, are regularly banded with gold, the flower stem is eight to nine inches long, the bloom very large and bright orange red in color. A beautiful decorative plant, being of fine tree shape. **10 cents each.**

Shower of Gold.—A beautiful dwarf growing variety, the whole plant being covered with a profusion of beautiful golden yellow blossoms.

Robert George.—A free continuous bloomer. Flowers are broad, their large, overlapping petals incurved, color orange, veined with crimson.

Eclipse.—This is an elegant foliage plant, and one of the prettiest we know. It is new, and the flowers, which are produced in profusion, set the plant off to good advantage.

Thompson's Plena.—New. Perfectly double flowers that resemble in form a double Hollyhock. Color a rich, deep orange, shaded and streaked with crimson. The foliage is delightfully variegated.

Infanta Eulalia.—Flowers large and cup-shaped. Color a delicate satiny pink.

Scarlet Gem.—A rich, bright scarlet.

Golden Bells.—Large, well shaped flowers of deep yellow.

ALOYSIA CITRIODORA.—Lemon Verbena.

This plant has the most fragrant foliage of any plant grown. The fragrance is that of the Lemon. One plant will scent up a whole yard. Grows rapidly. Exquisite. **5 cents each.**

AMARYLLIS.

Amaryllis, Belladonna Major.—One of the most lovely flowers imaginable. It throws up strong stalks, which support immense panicles of lovely shell pink flowers with a clear, white throat. It has the largest bulbs of any of the Amaryllis. **50 cents each for fine extra large bulbs to bloom at once.**

Amaryllis, Formosissima.—(Jacobean Lily.) This grand bulb will flower either Summer or Winter. Keep dry during Summer for Winter blooming, and reverse the order for Summer bedding. The flowers are of the darkest scarlet, very rich and pure, and produced freely. **Strong, blooming bulbs, 25 cents each.**

Amaryllis, Johnsonii.—One of the most gorgeous bulbous plants grown. We have seen specimens of a few years' growth that completely filled a window. Nothing is more showy than this grand plant during late Winter or early Spring, bearing large flowers of intense crimson, with a delicate white feather in each petal. It is most superb. **Strong bulbs to bloom at once, 50 cents each.**

Amaryllis, Equestre.—(The Eagle Lily.) This is entirely different from the other varieties of Amaryllis. The flower in shape and size resembles the Lily Candidum. The color is a brick red. Quite distinct and novel. **Fine bulbs, to bloom at once, 25 cents each.**

AGAPANTHUS UMBELLATUS.

Blue African Lily, or Lily of the Nile. A splendid ornamental plant, bearing clusters of bright blue flowers on long flower stalks and lasting a long time in bloom. There is no finer plant for outdoor decoration, planted in large tubs on the lawn. **10 cents each.**

AZALEA INDICA.

AZALEA INDICA.

One of the most gorgeously blooming families, together with the showiest of all greenhouse plants. The colors of the flower vary from the purest white to the deepest crimson in untold variations. The soil should always be packed hard when transplanted. Their success depends, however, on the degree of moisture in the atmosphere in which they live. We have a number of the best flowering sorts that will flower finely this coming Winter, both double and single flowered, in any color desired. The plants we offer are magnificent specimens, the finest you have ever seen, and all will bloom this year. **60 cts. each; fine large plants, three years old, 75 cents each.**

N. B.—Be sure and try our Azaleas, they will not disappoint you. In ordering, name the color you wish. We can furnish them in the following colors: White, pink, crimson, salmon, rosy lilac, and white striped with crimson.

ACALYPHAS.

Acalypha Sanderii.—This plant goes under various names, such as "Chenille Plant," "Philippine Medusa," "Comet Plant," "Dewey's Favorite Flower," "Bloody Cat Tail," etc. Without doubt the most sensational new plant introduced for many years, and one of the most striking flowering ornamental plants we have ever seen. It is of strong, free growth, with large, dark green leaves, from each axil of which ropelike spikes, from one to two feet long and nearly one inch thick, are gracefully suspended, as shown in our illustration, which conveys but a faint idea of the beauty and distinct warm coloring of this splendid acquisition. But the remarkable floriferousness and the great size of the spikes of flowers (compared to the plant) are fairly well shown. The plant is in flower the year round, and is as easily grown as a Coleus, simply requiring a warm temperature to develop its full beauty. **Fine plants, 10 cents each.**

Acalypha Triumphans.—This is a very ornamental bedding plant, the foliage being bronze, crimson and green. Very beautiful. Grows rapidly. **10 cents each.**

Acalypha Marginata.—A charming variety. Deep green foliage, with a distinct margin on the edge of each leaf of bright pink. Lovely. **10 cents each.**

ACALYPHA SANDERII.

ALYSSUM—DOUBLE SWEET.

A very great advance on the single Alyssum. It is indispensable as a cut flower, being a beautiful white, and very fragrant. A very useful edging plant. Continues to bloom till November, as light frosts do not injure it. Also fine for Winter blooming in the house. Elegant for baskets, vases or window-boxes. **5 cents each.**

ALYSSUM—DOUBLE SWEET.

A very great advance on the single Alyssum. It is indispensable as a cut flower, being a beautiful white, and very fragrant. A very useful edging plant. Continues to bloom till November, as light frosts do not injure it. Also fine for Winter blooming in the house. Elegant for baskets, vases or window-boxes. **5 cents each.**

ALTERNANTHERAS.

These are the little dwarf red and yellow plants that only grow a few inches high and are used to make letters, designs or borders for beds. We offer two kinds, red and yellow. **5 cents each; 50 cents per dozen; by express, \$3.50 per hundred.**

ARAUCARIA EXCELSA.

Norfolk Island Pine.

Various names have been suggested for this grand plant to properly convey to the mind the appearance of it. Some have called it the "Christmas Tree Palm," from its resemblance to a Christmas tree; others have called it the "Star Palm," because the leaves are arranged to form a perfect star, but no descriptive name can give an adequate idea of its beauty. It has deep green, feathery foliage, arranged in whorls, rising one above the other at regular distances: its symmetry of form, grace and beauty of foliage are unequalled in the vegetable kingdom. It is easily grown in the house and is highly ornamental. It requires the same culture as the Palm. Indeed, as a decorative plant for the house this is one of the handsomest and most serviceable plants in our collection. **Extra fine plants, twelve to fifteen inches high, \$1.50; nice young plants that will grow fast, \$1.00 each.**

ARAUCARIA EXCELSA. Norfolk Island Pine.

AGERATUM PRINCESS PAULINE.

A novel new variety of dwarf, compact habit, rarely exceeding eight inches in height. Its peculiarity consists of both blue and white being combined in the same flower, the body of the flower being white while the stamens forming an outer ring are sky blue, giving the flower a pretty variegated appearance. **5 cents each.**

New Ageratum,

STELLA GURNEY.

It is a decided improvement in color, being the deepest blue yet introduced, and is exceptionally free flowering, not only in Summer, but the year round. Ageratums are useful for borders, also for baskets and vases. These two varieties are grand. **8 cents each.**

AGERATUM, STELLA GURNEY.

ASPARGUS SPRENGERI,

The Emerald Feather.

A most desirable new species, especially useful to grow as a pot plant for decorative purposes, or for planting in suspended baskets. The fronds are frequently four feet long, of a rich shade of green, and most useful for cutting, retaining their freshness for weeks after being cut. It will make an excellent house plant, as it withstands dry atmosphere, and will succeed in almost any situation. **10 cents each.**

ASPARGUS SPRENGERI.

ASPARAGUS PLUMOSUS NANUS. The Climbing Lace Fern.

This graceful climber has, to a great extent, taken the place of the once popular Smilax in all fine decorations. It possesses the advantage of being much more graceful—its foliage being finer than that of the most delicate Fern—and will last for weeks after being cut, the whole plant being of a bright, cheerful green. It is an excellent house plant, succeeding under almost any condition. **10 cents each for fine plants.**

THE MOUNTAIN BEAUTY, ANTIGONON LEPTOPUS.

Rosa de Montana.—This beautiful climbing vine might well be called the carmine Wistaria, so similar are the lovely clusters of flowers to those of Wistaria. Apart from the similarity of flowers, it differs from the Wistaria in many ways. It is a native of Mexico. We believe it to be one of the most beautiful, as well as one of the rarest climbers in existence. Mountain Beauty is hardy in the South, and, once planted, is practically everlasting. It produces immense clusters of the most exquisite flowers imaginable. The flowers are borne in prodigious profusion, and a well-established plant, loaded with its gorgeous carmine flowers, is one of the grandest sights we have ever seen. Imagine a plant of Ampelopsis Veitchii with its magnificent, large, deep green foliage covering the entire veranda, loaded down with large clusters of carmine flowers, and you can form an idea of the splendor of Mountain Beauty. This is really a wonderful vine, which will excite the admiration of the amateur planter. It is one of our grandest introductions, sure to become immensely popular because of its handsome foliage and its superb, brilliant flowers. This is one of the plants you will be sorry to have missed getting when you see it growing and blooming. By all means take our advice and include several plants at least in your order. It is a bulbous plant, dying down each year. The plants we will send you are dormant, that is, bulbs without foliage, like a Dahlia. **10 cents each.**

BOUGAINVILLEA SANDERIANA,

(The Chinese Paper Plant.)

This beautiful, free-flowering plant was introduced recently and on account of its free blooming qualities has become very popular, especially as a plant for Easter decoration. It is of a strong, rapid growth, and the brilliant, rosy crimson blossoms in large racemes are produced from early March until mid-Summer. In fact, a well grown specimen will frequently flower the greater part of the year. Altogether a most desirable subject for the conservatory or window garden. **15 cents each.**

MOUNTAIN BEAUTY.

Flowering Begonias

PRICE, 10 CENTS EACH.

BEGONIA DEWDROP.

Alba Picta.—Long pointed, slender leaves, thickly spotted with silvery white, foliage small and elegant, lovely pink flowers.

Argentea Guttata.—Lovely green foliage with spots of silvery white.

Bertha de Chateauricher.—This is the freest flowering Begonia we have. It blooms the year round, makes a handsome window plant, with its beautiful foliage and bright curving red flowers.

Decorus.—This is the white flowering Rubra. Very similar to it, but with white flowers.

The Ever-Blooming Begonia, Dewdrop.—A grand variety with white flowers.

Foliosa.—This is one of most graceful of all the Begonias. The foliage is small and fleshy. Has the smallest leaves of all the Begonias. Bright pink flowers.

Fuchsoides Coccinea.—Elegant free blooming variety. It resembles Hybrida Multiflora in growth. Flowers bright scarlet.

Hybrida Multiflora.—This beautiful plant makes handsome specimens with its graceful branches and pendulous flowers of bright rosy pink. Very floriferous.

Margarite.—Leaves bronze green with purplish cast. It grows in round, bushy form. Very free flowering, large trusses of delicate cream and rose colored flowers.

McBethii.—Shrubby in growth with very deeply indented leaves, which are fine and small. Very free flowering, being constant the year round. A fine Summer bedding plant if given light soil and perfect shade. Put it among your Ferns. White flowers, waxy in texture. Carried in panicles.

President Carnot.—The leaves are smooth, long pointed and prettily blotched. The body of the leaf is a dark green, studded with bright, silvery spots. Covered with handsome rosy white flowers. A splendid house Begonia, being of quick growth, and having both handsome flowers and foliage makes it very desirable.

Rubra.—If you can have only one Begonia let it be a Rubra. It is so fast growing that it will in a year or two reach the top of your window, sending up heavy, stiff canes an inch in diameter, and rising beside them will grow strong slender branches, gracefully drooping under heavy waxen leaves and pendent panicles of coral-colored flowers as large as a hand. Medium-sized plants are frequently seen with more than twenty such panicles at a time. Among the individual flowers you will find three distinct forms growing side by side.

Robusta.—Bright rose and pure white. Coral red buds. This is a very desirable variety.

Sandersoni.—(The Coral Begonia.) One of the best flowering Begonias. The flowers are of a scarlet shade of crimson, borne in profusion for months at a time. Resembles coral.

Washingtonii.—This is a vigorous growing variety with tropical foliage. Elegant panicles of pure white flowers thrown well above the foliage.

TUBEROUS ROOTED BEGONIAS.

These are among the very handsomest of our Summer blooming plants, flowering throughout the season, and as fine and varied in their colors as the Geranium family. They are splendid bedders, delighting in a light soil of woods earth, very old cow manure and sharp sand. See that the bed is in partial shade, and you will be delighted with the results. In the south, or where they cannot be planted in the shade of a house, a covering of burlap or canvas, some six or eight feet above them, merely to throw off the sun's rays, will allow them to come to absolute perfection, but they must have plenty of light and air. Do not allow them to become dry. During hot weather they will take two waterings a day. When through flowering they can be dried off, shaken free of earth, wrapped in cotton until February or March, when they may be started again.

DOUBLE BEGONIAS.

Single.—White, yellow, crimson, rose, scarlet. **10 cents each; three for 25 cents.**
Double.—In the same colors. **25 cents each; five for \$1.00.**

BEGONIA REX, or KING OF BEGONIAS.

Far outshining all others. It seems to feed on the rich metals of the soil, and spreads their lustrous tints over its leaves. Give them a soil composed of rich loam, woods earth and sharp sand. They require a warm atmosphere and shady situation. Suitable for warden cases. Do not allow the sun to strike the leaves while wet, and do not overwater. We have twenty-five leading and distinct kinds. They are the handsomest of all Begonias, and most admired by all. Try a set and see how pretty they are. We will furnish them for **15 cents each, or two for 25 cents.**

CROTONS.

CROTON.

NOTHING can excel the beauty and richness of coloring that is found in this class of plants. They are beautiful pot plants for the conservatory, making very handsome specimens for decorative and exhibition purposes, and are now used extensively as bedding plants, for which purpose they are exceptionally well adapted. They should be planted in full sun in a position where they can be liberally supplied with water, which develops the most wonderful coloring in the foliage. Undoubtedly the most interesting and showiest bedding in our Springfield yards the past few years was made with this plant. **Price, 8 cents each; 4 for 25 cents; any ten for 50 cents.**

- Acubifolium.**—Broad green leaves with yellow spots.
- Aurea Maculata.**—Small, narrow leaves, bright green, profusely spotted with a deep yellow.
- Chrysophyllum.**—A lovely Croton with many shades.
- Dermaniana.**—Chocolate, with bright orange red spots.
- Disraeli.**—Irregular shaped leaves, yellow and crimson mid-rib.
- Ingomar.**—Narrow, irregular green leaves, bright yellow stripes.
- Interruptum.**—Long, narrow leaves. Center yellow and red.
- Inimitabilis.**—Golden yellow and fiery crimson. Very bright.
- Lowii.**—Crimson, green and yellow. Lovely.
- Makoyanum.**—Chocolate and carmine markings.
- Pictum.**—Lovely markings with green and orange.
- Splendens.**—Green with bright yellow markings.
- Spiralis.**—Slender leaves, twisted like a corkscrew.
- Veltchii.**—Yellow, green and crimson. One of the best.
- Volutum.**—The ram's horn Croton. Leaves dark green, bright yellow center. Shape of ram's horn.
- Weismanii.**—Narrow leaves with beautiful yellow mid-rib.

CAMELLIA JAPONICA.

This is the Famous "Japonica" of the South.

Leaves glossy green, flowers of exquisite beauty and waxy texture. From pure white to crimson, in almost endless variegation, the pure white ones generally prized above the colored varieties. Culture nearly related to that of the Azalea, but their success is more certain. Requires shade and moisture throughout the hot season. Time of blooming is in Winter and in early Spring. Requires a moderate and uniform temperature with as little artificial heat as possible. When set with flower buds great care must be taken in watering—when left too dry the buds are sure to drop. We have a fine assortment of those named below. **Plants eighteen inches high, 75 cents each. The set of eight distinct kinds for \$5.00; any four for \$2.50.**

CAMELLIA JAPONICA.

- Alba Plena.**—Double white, very fine, the best white.
- Lady Hume's Blush.**—Flesh color. Extra fine.
- Sarah Frost.**—Bright crimson. Fine.
- Queen of Denmark.**—Salmon rose, fine form.
- Americana.**—Blush, mottled with rose.
- Caleb Cope.**—Clear blush rose. One of the best.
- Fimbriata.**—Clear white, with the petals finely fringed.
- Jennie Lind.**—White, with pink stripes.

CYCLAMEN, PERSICUM, GIGANTEUM, or PERSIAN VIOLET.

This is a decided improvement over the old variety, being of a more robust habit and stronger grower. Produces flowers on short, stout stems, and of immense size, often measuring, on well grown bulbs, two inches in diameter. The foliage is also beautiful, and it is a charming Winter bloomer. **10 cents each.**

CYCLAMEN, OR PERSIAN VIOLET.

FANCY-LEAVED CALADIUMS.

These plants are especially valuable for decorating conservatories, window-boxes and as specimen plants. They are magnificent planted in beds outdoors, nothing being more showy. The brilliant cardinal red, cream, pink, white, and various shades of green that are displayed in the veinings and blotches of the leaves cannot be obtained in any other class of plants. For arranging floral baskets or table decorations they are quite as handsome as any flower. We have a fine collection of first-class, distinct, brilliantly-marked varieties. Usually the bulbs of Fancy Caladiums that are sent out are so small as to fail to grow. We have been fortunate in securing a stock of extra large bulbs, our selection of sorts, **20 cents each; three for 50 cents.** **The finest bulbs you ever saw of Fancy Caladiums.**

FANCY CALADIUMS.

CLERODENDRON BALFOURII.

A plant of great beauty. Makes a grand bedding plant where both foliage and bloom are desired. The flowers, which are of a bright scarlet, are encased by a bag-like calyx of pure white; the trusses or panicles of flowers are upwards of six inches in length, and when trained upon trellises and hanging down have a rich and elegant appearance. **Price, 5 cents each.**

BALFOURII.

CRAPE MYRTLE.

Handsome shrubs when in bloom. The flowers cover the entire plant. Hardy in the South. We have three kinds in the following colors—pink, crimson and purple. **5 cents each.**

CALADIUM ESCULENTUM.

One of the most beautiful and striking ornamental-foliaged plants in cultivation, either for culture in large pots or tubs, or for planting out on the lawn. Will grow in any garden soil, and is of the easiest culture. When of full size it stands about five feet high, with immense leaves, often measuring four feet in length by two and one-half in breadth. Smooth, of bright green color beautifully veined and variegated with dark green. The roots should be preserved in dry sand in the cellar during Winter, out of danger from frost. **Good bulbs, 10 cents each; 85 cents per dozen; large bulbs, 25 cents each; \$2.00 per dozen.** These are large, fine bulbs.

QUEEN OF NIGHT CACTUS.

CEREUS GRANDIFLORA, OR NIGHT BLOOMING CEREUS.

Decidedly the grandest flowering plant in cultivation. Imagine a dozen flowers unfolding with the setting sun their hundreds of wax-like petals, encircled by a wreath of gold, in continual motion. Imagine such a flower three feet in circumference, perfuming the surrounding air with the most delicious fragrance known. Does it not deserve its royal title? It grows and blooms with the greatest ease, requires absolutely no care, living for months without water, increasing in value yearly. We have the genuine variety, the only one with fragrant flowers twelve to twenty inches across, and can furnish nice plants at **8 cents each.**

Lobster Cactus.—Fine Winter bloomer, beautiful pink flowers. Blooms when quite small. **Nice plants, 6 cents each.**

CYPERUS ALTERNIFOLIUS.

(Umbrella Plant.)

This plant is of the easiest culture, and a large specimen is as handsome as a Palm for decoration. It makes a handsome pot plant or can be used in baskets or vases, making a charming effect. It will grow luxuriantly in water, and is, therefore, indispensable for aquariums or fountains. **5 cents each.**

UMBRELLA PLANT.

COLEUS.

We have a collection of one hundred kinds of the most distinct sorts out. Leave the selection of varieties to us, as it is hard to describe the various tints.

Price, 5 cents each; any ten for 50 cents; twenty distinct varieties for \$1.00; by express, thirty for \$1.00. We will send the below twenty choice named Coleus by mail, postpaid, for \$1.00. These are all good bedders, standing the hot sun without losing their colors. **Price of Coleus by the hundred, when sent by express, \$3.00.**

COLEUS.

- Autumn Glow.**—Has all the beautiful tints of Autumn leaves.
- Bronze Queen.**—A deep bronze with fine yellow edge.
- Black Bird.**—Very dark, with reddish cast.
- Butterfly.**—A crimson bronze, old gold and green.
- Bizarre.**—Crimson center, edged with green and gold.
- Beauty.**—A crimson bronze, with three colors.
- Chicago Bedder.**—Green and gold. An excellent bedder.
- Dora Clapp.**—Crimson center, with bronze and green edge.
- Empress of India.**—Crimson, with golden edge.
- Fire Brand.**—A fine bedder. Dark crimson, shaded garnet.
- Fire Crest.**—The foliage is a bright carmine crimson shade, the edge is slightly marked with golden yellow.
- Golden Bedder.**—Deep golden yellow. A fine bedder.
- Golden Verschafeltii.**—This ranks first in yellow varieties.
- Hero.**—A deep, jet black.
- Hiawatha.**—Bronze and yellow spotted.
- Progress.**—A beautiful mottled red, green and bronze.
- Retta Kirkpatrick.**—Bright green, large, deep yellow center.
- Setting Sun.**—Crimson, with brightest golden edge.
- Verschafeltii.**—A rich, velvety crimson. The best bedder.
- Yeddo.**—The color is a deep golden yellow, spotted with a bright green.

REMEMBER, The above twenty choice Coleus for only \$1.00; any ten for 50 cents. You have never seen anything so grand in the Coleus line. Try them, and see what a beautiful bed you can have, and with but little care.

CALLA LILIES.

New Baby Calla Lily, Little Gem.—This Calla only grows about six to eight inches high and is the freest blooming of all the Callas. The bloom is pure white. The following facts will convince anyone of its great superiority over the old sort. Of dwarf habit; the same plant will grow and bloom for years without once ceasing, and the quantity of bloom which a good plant will produce is astonishing. A large plant is hardly ever without one or more flowers. All in all, it is one of the most desirable plants we have ever offered. **10 cents each.**

The Black Calla.—Its flowers are enormous, fully a foot in length. Color a clear coal black, so intense that it really shows a brilliancy, and, as it may well be imagined, is a flower of most striking oddity and beauty. The bulbs are large, and should be potted in the Fall, and when growth commences, set in a window. After blooming, the foliage will die down, and the bulbs should be kept dry for replanting in the Fall. **Large flowering bulbs, 25 cents each.**

Calla Richardia.—(Spotted Calla.) Plant with beautiful spotted leaves. It flowers abundantly during the Summer months, when planted out in the open border. The flowers are shaped like those of a Calla, and are pure white, shaded with violet inside. Keep dry in Winter and start in the Spring like a Dahlia. The plant belongs to the same order as Calla Ethiopea. **Blooming bulbs, 10 cents each; larger size, to produce a dozen blooms, 25 cents each.**

Calla Ethiopea.—(Egyptian Lily) This is the well-known Egyptian Lily, or Lily of the Nile, with large, white flowers, broad foliage, and it will prosper under very adverse circumstances. If you want large Callas, send to us, as we are headquarters for them. We have three sizes. **Small plants, to bloom next Winter, 10 cents each; strong blooming bulbs, 25 cents each; mammoth bulbs to make ten to twelve blooms, 50 cents each.**

Calla Hastata.—This is the yellow Calla. It is just like the others, only the flower is a lemon yellow. It is very distinct and will enrich anyone's collection. **25 cents each.**

Special Offer. The set of five distinct Callas, all blooming bulbs, for 65 cents.

DRACENAS.

DRACÆNA INDIVISA.

Very beautiful, lively color giving it marked value. For room adornment, or as a vase plant for outdoor use, it is indispensable. 35 cents each.

DAHLIAS.

Within the last year or two wonderful revival of interest in the Dahlia has resulted in their now being important rivals of those standard bedding plants, the *Canna* and *Geranium*.

This to a great extent is due to the introduction of the dwarf profuse blooming varieties that a few years ago were unheard of. We offer a collection of the best *Cactus*, show and decorative Dahlias, in red, white, yellow, pink, variegated, and all intermediate shades. They are the "cream" of over five hundred varieties, selected after critical examination, and combining in a superlative degree purity of color, perfection of form, free and continuous flowering, and they succeed under the most ordinary garden culture. Strong roots, to bloom this Summer. 15 cents each; six for 75 cents; or the entire set of twelve for \$1.50.

Maid of Kent.—Crimson, shaded to cherry red, tipped white, very inconstant in color, many shades on the same bush. A lovely variety.

Blumenfalter.—Rosy lavender, shaded plum, densely quilled. A novel color for a flower.

Snowball.—A ball of snow white, heavy and profuse bloomer. Always attracts attention; height three feet. Fine for funeral work.

Spring.—Yellow, shaded a delicate orange scarlet. Very desirable.

Bird of Paradise.—Light pink, very symmetrical flower, on long stems. An attractive variety.

Dawn of Day.—A beautiful yellow, shaded rose, very large flower. A charming variety.

Jewel.—Flowers of many colors, from deep maroon to bluish white, including beautiful spotted and variegated flowers. All these colors are borne in profusion on the same plant at the same time.

Golden Bedder.—Rich, golden yellow. A profuse blooming variety, flowers large and handsome. One of the best yellow Dahlias grown.

Pearl.—Pearly white, petals long and symmetrical, flowers very large. One of the prettiest white Dahlias.

Marguerite.—Rosy lilac, flowers quilled and very shapely, a free and constant bloomer, stems very long. Fine for cutting.

Queen Victoria.—Brightest yellow, deeply quilled, large, perfectly formed flower. One of the best.

Fern-leaved Beauty.—A most beautiful variety, entirely distinct from all others. The flowers are of medium size, with quilled or shell like petals of creamy white color, each petal being heavily bordered with dark crimson. Its foliage is very finely cut, like that of a strong growing Fern.

NOVELTIES IN DAHLIAS.

Price, 20 cents each. The set of four for 65 cents.

Clifford W. Bruton.—This superb new variety is acknowledged by all who have seen it to be the finest yellow *Cactus* Dahlia ever produced. The flowers are large, five to six inches in diameter, perfectly full to center, while the outer petals reflex to the stem. The color is a solid, pure yellow, the clearest, richest shade ever seen. Invaluable for cutting and exhibition purposes.

Nymphaea, the Pink Water Lily Dahlia.—By far the most delicately beautiful Dahlia ever introduced. The color is a soft, delicate, light shrimp pink, shading slightly darker toward the outer petals, while the flowers are of large, perfect form and most exquisite, being soft, yellow, delicate and graceful. Has a delicate, refined Water Lily fragrance. This odor, together with its striking resemblance to the ideal pink Water Lily, suggested the name of *Nymphaea*. This variety, all things considered, is the finest in the entire list.

DAHLIAS.

Storm King.—(*Blossard*) This is without question the finest of all pure white Dahlias. It is extremely early, a profuse and constant bloomer, a strong, vigorous grower, of dwarf, branching habit. Will produce double the quantity of flowers of any other white variety, very double and perfect shape. It is far ahead of any other white Dahlia.

William Agnew.—The grandest red *Cactus* Dahlia ever produced, and one that will eventually find its way into every collection. The flowers are of the largest size, sometimes measuring more than seven inches in diameter. Always full to the center, of perfect form, and of exquisite quality and finish, while the color is the richest shade of intense dazzling red. The petals are very long, the outer petals being beautifully twisted. Certainly a grand variety.

BEAUTIFUL FERNS.

The popularity of Ferns has increased wonderfully in the past few years, and they are now indispensable in all choice floral decorations, and are especially valuable for ferneries, for room and table decorations. No collection of plants is complete without Ferns.

Nephrolepis Exaltata Bostoniensis.—In the vicinity of Boston no other plant is used so extensively as this graceful *Nephrolepis*, which differs from the ordinary *Sword Fern* in having much longer fronds, which frequently attain a length of six feet. These arch and droop over very gracefully, on account of which it is frequently called the *Fountain Fern*. This drooping habit makes it an excellent plant to grow as a single specimen on a table or pedestal. Good plants, 15 cents each, large strong plants, 35 cents each.

Adiantum Concucum.—(*Maidenhair Fern*.) This is the beautiful *Maidenhair Fern* which the florists employ in so many ways, either as pot plants or cut fronds. It is very light, airy and graceful. Don't confound it with the old common *Maidenhair Fern*. 20 cents each.

Nephrolepis Compacta Cordata.—(*New Sword Fern*.) It is of a free, strong growing, compact habit, attaining, when full grown, a height of about two feet. The fronds are of a dark green color, very rich, of upright growth, with just sufficient arch in them to make them graceful. For house culture or for window-gardening we don't know of any other variety that would give the same satisfaction, and which we could recommend so highly. 15 cents each; large strong plants, 25 cents each.

Davallia Stricta.—One of the finest Ferns in cultivation whether for growing as a decorative plant in the room or planting out. The fronds are of strong texture, very fine and delicate. 20 cents each.

Pteris Tremula.—(*Shaking Fern*.) The slightest movement of the air shakes the leaves of this Fern, which we recommend as being very desirable for house culture. It grows readily and very fast. 20 cents each.

Pteris Argyreæ.—(*The Silver Fern*.) A very showy Fern with light green fronds, with a broad band of silver white down the center of each. Very distinct and beautiful. 20 cents each.

BOSTON FERN.

THE WONDERFUL JAPANESE FERN BALLS.

FERN BALL BEFORE IT IS STARTED INTO GROWTH.

CULTURE OF FERN BALLS.—All you have to do to start them to growing is to soak them well with water, and hang them up in a warm room. It usually takes about six weeks to start them. They need no earth, dish or pot. Simply soak them and hang them up.

FERN BALL AFTER IT IS STARTED.

This novelty from Japan we take great pleasure in introducing as one of the most satisfactory house Ferns ever offered. One was started last January, and its beautiful leaves and color attracted the attention of all who saw it until August, when it was placed in the cellar to rest. The center is moss covered with Fern roots in a very ingenious manner, looking like a ball of small roots twisted together. After watering, they start into life, and in a short time are covered with a mass of beautiful green foliage. If desired they may be allowed to dry up, which is very convenient when a person goes on a Summer vacation. They may be started again by simply watering as before. When growing they should be watered two or three times each week. If desired they may be cut in halves and placed in a Fern dish. The ball, before it is started, is six to ten inches in diameter. We only handle the "Nagaha" long leaved variety; the common variety only produces short fronds. **Large Fern balls, 75 cents each; small size, 50 cents each.**

FIGUS ELASTICA.

India Rubber Plant.—Very large, smooth, leathery leaves. Evergreen foliage. Esteemed one of the finest house plants. Each new leaf is enclosed in a long, coral red envelope, looking like a great red flower bud. The rubber of commerce is obtained from this plant. It stands all kinds of harsh treatment. **Small plants, twelve inches high, 50 cents each; eighteen inches high, 75 cents each; fine plants, two feet high, for \$1.00.**

POT OF GLOXINIAS.

GENISTA CANARIENSIS.

(Fountain of Gold.)

This beautiful plant well deserves the great popularity it has gained in the past two years. The drooping branches are covered with delicate sage green foliage, and every twig is tipped with a long raceme of exquisite, pea-shaped blossoms of a pure canary color, almost hiding the foliage, and suggesting the name, "Fountain of Gold." Charming. **10 cents each.**

FIGUS ELASTICA.

GLOXINIAS.

These are among the most beautiful of all our Summer blooming plants. The rosette of velvety green leaves is surmounted with a cluster of lovely trumpet-shaped flowers as large as Gladiolus blooms. The coloring is exquisite. The groundwork of many is pure white, with throats of blue, scarlet, rose, crimson, or velvety purple, while others are beautifully flecked and striped with the brightest colors, and the tubes are of a bright color, with white throat. The bulbs should be started in a warm place, greenhouse, hot-bed or sunny window. They will bloom until late in Summer, when they should be dried off, letting the leaves die. The pots can be kept over Winter in a cellar free from frost. They are very easily grown. Give them a trial. **10 cents each; three distinct varieties for 25 cents.**

Gladioli.

The Gladiolus is the most satisfactory, the most desirable and the most popular of a garden bulbs. Nothing else in the flower line costs so little, and nothing else grows and blooms so readily for anybody and everybody, in any soil or climate. It makes a display which for brilliancy and beauty of coloring, few bulbs can equal and none surpass.

CULTURE.—Gladioli are of the simplest culture. Plant at any time from April to July, in any fairly good soil wellspaded. Set in rows three inches apart, or in masses six inches apart each way. Plant in full sun if possible, and keep down weeds. They bloom from July to October. After Fall frost lift the bulbs, and after removing the tops let them dry for two or three weeks in an airy position under cover. Then, after removing the roots, store them in a cellar, or any cool, dry place, away from frost, for planting again the following Spring.

Named Gladioli.

Price, 5 cents each; or the set of twelve for 50 cents.

Madame Monneret.—A really superior variety. Flower spike large and well formed, flowers large and of a delicate rose color. Exceedingly pretty, and always attractive.

Reine Blanche.—A lovely pure white, with dark crimson blotch.

Brenchleyensis.—Intense fiery scarlet. Extra early bloomer, and one of the most popular and showy kinds.

Le Poussin.—Light red, with white blotches.

Napoleon III.—Rich, dark red, with pure white throat.

Conquerant.—Handsome spike of very large carmine flowers, with pure white blotches and white band in each petal.

Leander.—Lovely, large, lilac, shading to carmine. Distinct white bands in each petal and white blotch.

Ceres.—Pure white, with purple rose spots and marks. A very fine sort.

John Bull.—White, slightly tinged yellow, and marked violet rose. A grand old favorite.

Eugene Scribe.—A superb sort. Flower large and wide, tender rose, blazed and striped carmine.

Golden Sceptre.—(Isaac Buchanan.) Most beautiful, fine, clear yellow. Spikes large and perfect. A great favorite.

Coquette. Large and fine flower, bright cherry red, with large, pure white blotches and white band in each petal.

GLADIOLI—MIXED VARIETIES.

MIXED GLADIOLI.

Our mixed Gladioli are not the poor, dull colors, old discarded red sorts and worthless seedlings usually sent out as mixtures. On the contrary, they are made up from splendid named sorts, brightest and most varied colors, white, yellow, pink, rose, blush, intense scarlet, carmine, violet, striped, blotched, variegated, etc. All old common and poor sorts have been discarded, and this mixture is of the highest grade.

Mixed, All Colors.—First size, extra large flowering bulbs. Per dozen, 30 cents; per hundred, \$2.50, by mail.

Mixed, White and Light Varieties Only.—First size, 40 cents per dozen; \$3.00 per hundred.

Mixed, Scarlet Varieties Only.—First size, the finest scarlet sorts, 40 cents per dozen; \$3.00 per hundred.

Mixed, Pink Varieties Only.—First size, finest pink colors, 40 cents per dozen; \$3.00 per hundred.

Mixed, Yellow Varieties Only.—First size, finest yellow and orange shades, 60 cents per dozen; \$4.00 per hundred.

GREVILLEA ROBUSTA.

A splendid decorative plant, much quicker growing than a Palm, and very effective, with its long, drooping, silky foliage, deeply cut, like a large, growing Fern, or a pinnated-leaved Palm. Be sure and try it for your window. It cannot be excelled. 5 cents each.

CHINESE HIBISCUS. TEN FINE VARIETIES.

Price, 10 cents each; any three for 25 cents. We have large plants of Hibiscus, ready to bloom, for 25 cents each. These are handsome plants,

SPECIAL OFFER.—We will send the entire set of ten distinct kinds of Hibiscus for 75 cents.

Sinensis Giganteus.—This is a plant for house cultivation during Winter or Summer, or for planting outside during Summer. It blooms at all times of the year. The plants branch freely and flower profusely, commencing to bloom when not more than a foot high. As a specimen plant for large pots it has an equal only in the Brugmansia. Its flowers are of enormous size, often eight to ten inches across, opening flat, and of such a vivid crimson scarlet color that they can be seen for a long distance, like a flaming torch. It is hard to find anything among flowers more strikingly showy. They can be wintered in the cellar or pit with perfect safety, and if one does not care to grow them all Winter, one should have one or two for Summer display. No plant is surer to thrive under any treatment than this, and few can ever be so satisfactory.

Auriantica.—Large and double, with orange-colored flowers.

Grandiflorus.—Rich, glossy, cut-leaved foliage, literally covering the plant with scarlet crimson flowers.

Collerli.—Flowers buff yellow, with a crimson scarlet base. Peculiarly handsome and double.

Zebrinus.—Double, the outer petals scarlet, edged with yellow.

low. Inner petals are very irregular, curiously variegated with creamy yellow and white.

Verticolor.—A variety combining in its flowers all colors of the whole family, being handsomely striped crimson, buff, rose and white. Flowers eight inches in diameter.

Magnificus.—A very large flower and of perfect form. Color a deep magenta, edge of petals touched with brown, foliage finely toothed.

Carminatus Perfectus.—Full, round flowers of perfect shape, and of a rich, soft, carmine rose, with a deep crimson eye. Fully six inches in diameter.

Double Crimson.—This grand variety has immense flowers of the richest crimson. Combined with glossy foliage renders it best of all.

Sub-Violaceous.—Flowers of enormous size, a beautiful carmine, tinted with violet. Probably the largest flower of the Hibiscus family, and an unusually free bloomer. We take great pleasure in recommending this fine plant.

NEW PINK HIBISCUS, "PEACHBLOW."

This is a sport from the double red Hibiscus "Rosea Sinensis." The flowers are double and from four to five inches in diameter, of a charming rich, clear pink color, with small, deep crimson center. It is one of the freest flowering plant novelties recently offered. The color is an entirely new and beautiful shade, and it blooms abundantly and continuously during the Summer and Fall months. Large plants two or three years old make a magnificent show. It will give general satisfaction to those who grow it, either in pots or planted out in the garden. It blooms well in the Winter in the greenhouse or in a sunny window. 20 cents each.

HIBISCUS PEACHBLOW.

HOYA CARNOSA—THE WAX PLANT.

This is a lovely house plant. Grows into a handsome plant, and bears large umbels of white flowers that are covered with wax; hence its name. It is very desirable. 20 cents each.

HOYA CARNOSA.

HYDRANGEAS.

New Hydrangea, Monstrosa.—This is by far the best of all Hydrangeas, the flower being almost double in size of the older varieties, and its free blooming qualities are unequalled by any plant we know of. The color is at first a deep, rich pink, gradually changing to almost a snow white. Blooms have been measured fifteen inches in length by ten inches through. It is indeed an enormous and beautiful flower. **10 cents each.**

New Hydrangea, Stella Fimbriata.—This is the only double Hydrangea in existence. The individual flowers are perfectly double, and resemble in shape small rosettes, a beautiful peach pink in color, very floriferous, flowers of the largest size. It is certainly a charming plant. **10 cents each.**

New Hydrangea, Red-Branched.—(*Ramis Pictus*.) A valuable addition to the list of Hydrangeas, with dark red branches that brighten to a clear crimson color as they near the flower trusses. The plant is of robust habit, and produces freely immense heads of deep, rose colored flowers. **10 cents each.**

Japanese Hydrangea, Paniculata Grandiflora.—A very striking and elegant hardy flowering shrub, suitable for lawns. Introduced from Japan. The flowers are pure white, afterwards changing to pink, and are borne in immense pyramidal trusses more than a foot long and nearly as much in diameter. It blooms in mid-Summer, and remains in bloom two or three months. It creates a great sensation wherever seen. The plant is of bushy and compact growth, attains a height of three to four feet. Perfectly hardy in all parts of the country. Needs no protection. **Fine young plants, 15 cents each; extra strong two-year-old plants, for immediate effect, 35 cents each.**

Hortensis.—The old favorite variety. Pink flowers, changing to blue in soils containing iron. **10 cents each.**

Thomas Hogg.—A pure white variety, with trusses of flowers measuring fifteen inches in diameter. The plants, when full grown, attain a height and width of six feet. Perfectly hardy. One of the finest plants for cemeteries. **10 cents each.**

Otaksa.—Bright, rosy pink, flowers always perfect, and lasting, when in bloom, three or four months. Try it. **10c each.**

SPECIAL OFFER.—The seven Hydrangeas, good plants, for 65 cents.

FRAGRANT HELIOTROPES.

PRICE, 8 CENTS EACH.

Florence Nightingale.—The best free-flowering light lavender.

Chieftain.—Color deepest violet purple, large white eye, very fragrant. The plant is of vigorous habit, very floriferous.

Snow Wreath.—Superb large clusters of deliciously fragrant flowers of pure white.

Albert Delaux.—(*Purple and Gold*.) Foliage is a bright, golden yellow, very pronounced, and marked slightly with a delicate green. In bloom it is exquisitely beautiful, the deep lavender color of the flower contrasting admirably with the ever varying foliage, very free flowering, trusses large.

The Queen.—For a neat, dwarf habit, profusion of bloom and richness of odor, this Heliotrope has no equal, and its vivid color of royal purple with a distinct white center gives us something entirely new in color, either for Summer decoration or Winter flowering. This is by far the best of all Heliotropes. Simply grand.

IMPATIENS SULTANI.

This makes a very shapely plant, and is in bloom continuously the year round, outdoors or indoors, even in the small plants three or four inches high. The bloom is bright pink, and comes so profusely as to almost cover the entire plant. Very desirable. **10 cents each.**

JUSTICIA CARNEA.

Brazilian Plume Plant.—Perhaps no plants have attracted so much attention in the last two years as the Justicia, or Brazilian Plume Plant. The plant is a strong, rapid grower, and throws up long stems, on which are produced fine, plume-like pink flowers, the ends of each petal drooping in a most charming manner. When plants are but a few months old they are literally covered with their beautiful blossoms. It does equally well either for house or outdoor culture. **10c each.**

LINUM TRIGYNUM.

A plant of great beauty, producing in the greatest profusion very large and showy blossoms of a bright yellow color. It is probably the freest Winter-blooming plant we have. **8 cents each.**

HYDRANGEA, MONSTROSA.

FRAGRANT JASMINES.

Jasmine Graecillimum.—Exceedingly floriferous. A flowering shoot is produced from every joint, which terminates in a dense cluster of pure white, fragrant flowers. In bloom in the greenhouse from October to February. **10 cents each; fine, strong plants, 30 cents each.**

Cape Jasmine.—Well known for its delicious fragrance and beauty of its flowers, which are white and double. **10 cents each; fine, strong plants, twelve inches high, well branched, for 35 cents; eighteen inch, well branched, extra strong plants, 50 cents.**

Revolutum.—A yellow-flowered Jasmine, nearly hardy and exquisitely fragrant. **10 cents each; fine, strong plants, 25 cents each.**

Poetica.—Similar to the Jasmine Grand. Flower small, but borne on larger spikes. **10 cents each; strong plants, 25 cents each.**

Grandiflorum.—(*California Jasmine*) It is from Italy. The flowers are pure white, star-shaped, and of exquisite fragrance. **10 cents each; fine strong plants, 25 cents each.**

Maid of Orleans.—In this beautiful Jasmine there are combined some sterling qualities that place it a peer over existing sorts. Easy culture, fine grower, good bloomer, elegant fragrance, and double flowers of chaste and waxy white appearance. **Fine plants, 10 cents each; strong plants, 40 cents each. If you have only one Jasmine, let it be this one.**

Grand Duke of Tuscany.—This Jasmine is very easily grown, even small plants bearing a profusion of very double, cream white flowers, having a delicious perfume. It is a magnificent plant, and will become one of the most valuable and popular pot plants when it becomes better known. It can be stored in a dry cellar in Winter. **20 cents each; strong plants, 50 cents each.**

Confederate Jasmine, Rhyncospermum Jasminoides.—This makes an elegant hard-wooded climber, or can be trained in bush form. It bears large bunches of pure white flowers, with the most delicate Jasmine perfume. It is known in the South, where it is hardy, as the Confederate Jasmine. It will delight all. **15 cents each.**

LANTANAS, or SHRUBBY VERBENAS.

The brilliant colors, robust growth and profuse blooming habit of the Lantana render it one of the finest bedding plants we grow. The flowers embrace all of the most delicate shades of orange, sulphur, creamy white, etc., changing from one distinct color to another as they increase in age and development. The varieties we have give a wide range of color, and include the most distinct and profuse kinds. **8 cents each.**

WEeping LANTANA.**A New Weeping Plant of Great Beauty.**

One of the grandest basket plants grown. The plant has a most graceful drooping habit, grows very rapidly and blooms continually Summer and Winter, producing large clusters of the most delicate lilac or rosy pink, foliage a beautiful dark green. A single plant on August 1st, this past Summer, had five hundred and ninety clusters of flowers on it. The same plant December 1st had three hundred and fifty clusters of flowers on, which proves it one of the most persistent bloomers, and does equally well Winter and Summer. We know of nothing of recent introduction that is so easily grown and gives so much pleasure and satisfaction as this beautiful Lantana. Strong plants, **8 cents each.**

MANETTIA BICOLOR.

The most wonderful new vine or plant that has yet been produced. It blooms in Winter as well as Summer. It is both a rapid and beautiful climber. The flowers are from an inch to an inch and a half in length, of a most intense bright scarlet, shading into flame, tipped with the deepest golden yellow, and covered with a thick scarlet moss. The blossoms remain on the plants for weeks before falling. Has our highest commendation. Send to us and get the genuine. **Fine plants, 10 cents each.**

BEAUTIFUL MARGUERITE DAISIES.

Marguerite Daisy, Madame Gallbert.—This is one of the finest new plants that has ever been introduced. Nothing can be imagined that is finer. All know the old varieties of Paris Daisies, how beautiful and much sought after for decorations of all kinds: This new variety blooms constantly, and will produce ten blooms to the old variety's one. Nothing is so airy and graceful as these blossoms of large, white petals showing a yellow disc. **8 cents each.**

Marguerite Daisy, Etoile de Or.—The new yellow Paris Daisy, similar to the above, but a rich, golden color. The two varieties go handsomely together. **8 cents each.**

Agatha Celestis, or Celestial Daisy.—The flowers are a delicate sky blue, with a yellow disc. It is certainly a charming plant. Dwarf-growing, not over a foot to eighteen inches in height, and the bushes fairly swarm with its lovely blue blossoms. The cut-flower stores in the cities use them by the hundreds of thousands. Blooms from November to June. Very desirable. **8 cents each. The three Marguerites for 20 cents.**

MYRTUS COMMUNIS.

This is the sweet German Myrtle. It grows into a handsome bush, and is evergreen, therefore is a fine plant for house culture. The foliage is deliciously fragrant. Every one should grow it. **10 cents each.**

MOON FLOWERS.

The True Ever-blooming Moon Flower, Ipomoea Grandiflora.—We have the true variety that blooms constantly. If planted out in rich ground, in a situation where it has full exposure to the sun, it will attain a height (if given a wire or string to twine on) of forty feet by October 15th, blooming abundantly the entire season. It is called "Moon Flower" from its rare peculiarity of blooming best at night, although it also expands its flowers in dull days. The flowers are pure white, from five to six inches in diameter, emitting a rich, Jasmine-like odor at night. The "Moon Flower" is a tender plant, but it can easily be kept in the house over Winter. It roots easily from slips, so that no attempt should be made to lift large plants. **Price of the True Moon Flower, 10 cents each.**

New Moon Flower, Heavenly Blue.—This makes a splendid companion plant to the white Moon Flower. It is equally rapid in growth and a much freer blooming variety than the white one. The blooms come in clusters of five to twelve, and at times almost hide the vines. The flowers are the most heavenly blue, with reddish purple rays, and are six inches across. Nothing is more beautiful. **10 cents each.**

MILK AND WINE LILY.**Or Crinum Fimbriatum.**

"I must tell you that Milk and Wine Lily has done famous work. It has developed nine fine blooms, and there are two unopened buds. We therefore gave it a free ride last Wednesday to our chapel services. It was admired by everybody. There were Bostonians and people from various towns to admire and enjoy it."—*Mrs. E. Adams, Mass.* A grand sort, the most beautiful of the Crinums. Its bulbs grow large, and its strong-growing foliage is erect and sword-shaped. Flowers in umbels very large and showy, three to four inches in diameter, striped with white and carmine and very fragrant. Hardy in the South. **Fine blooming bulbs, 50 cents each.**

MADEIRA VINE.

This is one of the most beautiful of climbers. Grows rapidly, bearing small, white blossoms that are exquisitely fragrant. Fine tubers, **5 cents each.**

MAHERNIA, or HONEY BELLS.

This is a fast-growing dwarf plant that bears bell-shaped yellow flowers freely, which are as sweet as any flower we grow. **8 cents each.**

OLEA FRAGRANS, or TEA OLIVE.

One of the most desirable flowering shrubs of Southern gardens, and also a favorite house plant in the North. Has deep green foliage similar to the Camellia. The white flowers, although small, are produced in great profusion, and emit the most pleasing fragrance. It has been well said that each individual bloom has more sweetness than the most fragrant Lily. The blooming period begins in the Fall and lasts for several months. It is of easy culture, and especially desirable as a window plant. **25 cents each.**

OLEANDERS.

These old-fashioned shrubs are becoming immensely popular again. We are growing and selling them by the thousands. No plant makes more handsome specimens in tubs for the veranda or yard. Can be wintered in the cellar. We have three colors to offer. **Price, 10 cents each.**

Oleander, Rosen.—Has double pink flowers. The old favorite. Very sweet.

Lillian Henderson.—Has double white flowers of the largest size. Fragrant like the old double pink. Scarce.

Lutea.—Has double primrose yellow flowers of a lovely shade; also fragrant. Scarce.

OTAHEITE ORANGE.

This valuable and distinct variety of the Orange family is a dwarf, compact grower, with glossy, deep green foliage, which has a decided odor of the Orange trees of Florida, and is exceedingly floriferous, producing a wonderful profusion of pure white flowers of the most delicious fragrance. Identical with the much sought-for blooms of Southern Orange groves. Otaheite fruits immediately after flowering, bearing fruit about one-half the size of the ordinary Orange, retaining in a marked degree its sweetness. This unique Orange cannot be equaled as a Winter-blooming pot plant for house culture. Requires but little sunlight, and flowers and fruits when but twelve to fifteen inches high. As a pot plant this lovely Dwarf Orange is one of the most novel and beautiful that can be grown. With a couple of plants of it you can have an abundance of the far-famed delicate and fragrant Orange blossoms. We have grown a large stock of clean, vigorous plants that will bloom and fruit at once, of this beautiful Orange, and commend it to our friends as a novelty of sterling worth and merit. Good plants, **10 cents each; large, strong plants, to bloom and bear profusely at once, 25 to 40 cents each,** according to size.

ORANGE KUMQUAT, OR KIN KAN.

This unique and wonderfully beautiful Orange is a native of Japan, where it is known as the Kin Kan, which means "gold orange, its other name—Kumquat—is Chinese for the same meaning. It bears in the most marvelous profusion little miniature oranges no larger than a Damson plum, of a rich golden color and glittering amid the dark foliage like burnished gold. The whole fruit, rind and all, is eaten, and people become very fond of them. The rind is sweet and the pulp agreeably acid, making a piquant combination. They are also delicious preserved and crystallized. The plants begin to bear just as soon as they have wood enough to hold fruit, and are loaded with fruit and flowers every year. We have had bushes only twenty inches high carrying upward of one hundred oranges. We have put in cuttings in the Fall that started growth the following March, bloomed and set fruit in June, which ripened in the Fall—only one year from the time the cuttings were propagated! A small tree, not more than six feet high and five feet through, bore over two thousand fruits, and this is by no means an extraordinary yield for this sort. The branches are slender, without thorns, the leaves narrow and oval, and the plant assumes a fine shape. As a pot plant it will create a sensation wherever grown. As a window plant for the North as well as for gardens in the Orange region, the Kin Kan is one of the handsomest and most valuable ornamentals. Diminutive trees in pots are loaded with fruit and flowers every year. The small but exquisitely beautiful fruit hangs on the unique and handsome evergreen trees all Winter. Fine plants, to bear at once, **50 cents each.**

OXALIS, ORTIGESI.

Upright Oxalis, or Star of Bethlehem.—Few new plants will give better satisfaction than this, as it is a perpetual bloomer in every sense of the word. It is full of bloom every day in the year, when grown in a pot of good soil and with ordinary care. It grows as freely as a Geranium in any situation. It is a shrubby plant, like a Geranium or Fuchsia without buds, in which respect it differs from other Oxalis. It grows twelve to eighteen inches in height, branching freely, and loaded at all times with clusters of bright golden, star-shaped flowers, which do not close at night like other Oxalis. Beautiful as the flowers are, it is still a splendid plant without them, on account of its highly ornamental foliage. The leaves are three lobed, dark, olive green above, and a beautiful, shining metallic crimson purple underneath, and wine-colored stems. This makes a truly novel plant, as well as a very beautiful one, and it is surprising to see what attention it will attract. **10 cents each.**

DOUBLE FRINGED PETUNIAS.

The double Petunia is one of the finest bedding plants for massing, mixed borders, or for vases. The brilliancy and variety of its color, combined with the duration of its blooming period, renders it invaluable for garden decoration. Our collection is unsurpassed for brilliancy of color and size of bloom. It includes all the brightest shades of pink, purple, rose, white, etc. Name the color you want. **15 cents each; two for 25 cents.**

PRIMULA OBCONICA.

PRIMULA OBCONICA.

Always in Bloom. This is a charming plant for Winter. In fact, we know of no plant that is better adapted to home culture than this one. It is not susceptible to changes of temperature that most plants are subject to. It bears its elegant panicles and sprays of bloom of a delicate pink and white in the greatest profusion. It is certainly elegant. **10 cents each.**

New Ever-Blooming BABY PRIMROSE.

This is the freest-blooming plant we know of, blooming continuously throughout the entire season. Plants in very small pots have from fifteen to twenty sprays of lovely light pink flowers, on stems ten to twelve inches high, at one time, and plants in four-inch pots often have from twenty-five to fifty at one time, lasting in bloom fully four weeks without fading, and continually sending new sprays all over the plant, making it one of the most desirable plants for the house ever introduced. It is a very rapid grower, and the easiest grown of all the Primrose family. Very desirable. **10 cents each.**

PITOSPORUM TOBIRA.

An elegant hard-wooded shrub. Hardy in the South. Makes handsome specimens, growing into a small tree in a few years. It bears small, white flowers in large bracts, or heads, which are so delicious in fragrance as to remind one of orange blossoms. **Fine plants, 15 cents each; strong, large plants, 25 cents each.**

NEW BABY PRIMROSE.

CHINESE PRIMROSE.

In White, Pink and Crimson. Few house plants afford better satisfaction than this. It requires to be kept cool, a north window suiting it best. Care should be taken in watering it that no water gets on the buds, as it causes them to decay. In the Summer it can be turned out into a shady border. The plants we offer are fine, and the colors are sure to please. We have them in white, pink and crimson. **10 cents each.**

MEXICAN PRIMROSE.

This plant is strictly a perpetual bloomer. In flower at all seasons of the year, a good specimen showing always from ten to thirty large saucer-shaped blossoms, about three inches across.

Apple Blossom.—A splendid variety, with handsome flowers, shade of apple blossoms. Entirely hardy. **10 cents each.**

PHRYNIUM VARIEGATUM.

It is impossible to convey by description or cut anything like a correct idea of the great beauty of this new ornamental foliage plant. Its habit of growth is almost precisely like the Cannas, and it grows from a tuber, which may be wintered dry—like a Gladiolus—if desired, or it may be kept growing the year round as a pot plant. The Cannas-like shoots grow from a foot or eighteen inches to three feet high, and the leaves, which are spreading blades of oblong, lanceolate form, are from six to ten inches long and two to five inches broad. They are bright, pale green, beautifully variegated with pure white and rich cream, the variegations being extremely diversified. Indeed, in our beds of thousands of the plants it is almost impossible to find two leaves exactly alike. In some leaves the whole area is pure white or rich cream color, in others only one-third or one-half, in others again it is reduced to a few stripes or faint lines—and all of these variegations in one plant. It is very free-growing, and one of the most ornamental plants imaginable, either for pot culture or for bedding out. It is a grand plant to border Cannas beds with, standing the full force of the sun's rays. Indeed, the fiercer the sunshine the more perfect are the variegations of the leaves. The variegations grow constantly better and more varied as the plant grows older and larger. It is managed with the most perfect ease, and is absolutely sure to delight all who grow it. **Fine plants, 10 cents each; three for 25 cents.**

PANDANUS UTILIS.

Screw Pine. This is a charming plant, and is one of our most useful of ornamental plants. The foliage is green, edged with red. When the plant is fully developed the leaves describe a perfect screw on the stem, hence the name, Screw Pine. This will go nicely with your Palms, and requires the same culture. Give very little water during the Winter season. **Fine plants, 35 cents each.**

PEPEROMIA MACULOSA.

A lovely house plant. The leaves are distinctly variegated with white and green, and have the appearance of being powdered with frosted silver. Called Watermelon Geranium by some. **15 cents each.**

PEPEROMIA MACULOSA.

POMEGRANATES.

These make shapely ornaments for the lawn, growing into large, shapely shrubs. They are used extensively in the South for hedges. The foliage is small, flowers double and very pretty. We have three varieties, **Double White, Double Scarlet and Double Variegated.** **5 cents each.**

PLUMBAGOS.

Sanguinea.—The Plumbagos are very desirable plants for bedding or house culture, and are admired by all for their elegant trusses of bloom and the delicate colors of their flowers. The light blue and white varieties are well known favorites, but with the new variety, Sanguinea, we have something that is entirely distinct and the prettiest of all Plumbagos. The trusses of bloom are larger than in the older varieties, often measuring ten inches in length, and of the loveliest bright pink or deep rose. Order one and be surprised. **15 cents each.**

Capensis, Flora Alba.—This is a splendid novelty. The exact counterpart of Plumbago Capensis except in color, which, in this beautiful novelty, is a clear white. This is one of the leading new plants of the year. Do not confound this with the old worthless white. One of the most satisfactory bedding plants out. We recommend this highly. **10 cents each.**

Capensis.—This produces large heads of light blue flowers. It has the most peculiar shade of blue of any flower in cultivation. Always in bloom and an elegant bedder. **15 cents each.**

PANSIES.

New Imperial German Pansies.—They produce their large flowers throughout the entire Summer, and have been brought as near perfection as it is possible to bring them, as the endless variety and extremely rich, brilliant and charming shades of color will convince you—color so brilliant that it was not thought possible a few years ago could be produced. The combinations of color in the same flower are exquisite and wonderful, and so delicate that no description can convey an adequate idea of their beauty. **35 cents per dozen; \$2.50 per hundred. Seed of the New Imperial German Pansies, 10 cents per packet.**

RUSSELLIA MULTIFLORA.

This is a grand new plant. The primary stems are strong and grassy. The flower panicles are extremely long and are covered with tassels of flowers one over the other. Color a grand coral red. The flowers are tubular, and about an inch in length, and are produced so very freely as to cover the entire plant. It is well named many-flowered. Always in bloom. No better plant is grown for baskets, vases and window-boxes. **10 cents each.**

SMILAX.

For using as a green with cut flowers it has no equal, its hard texture enabling it to keep for several days without wilting after being cut. It is also fine as a parlor or window plant. **5 cents each.**

SAXAFRAGA SARMENTOSA.

A very handsome plant of low habit, leaves nearly round and striped freely with silver bands, blooms white, of great beauty and borne in spikes nearly twelve inches high. Fine for hanging baskets, vases, etc. **10 cents each.**

SALVIAS.

New Dwarf Scarlet Salvia, Le President.—The grandest addition to our list of bedding plants. It forms a compact bush completely covered with rich, scarlet flowers. We have had plants that by actual measurement were only *fifteen inches high and two feet across.* As a border or vase plant it will be indispensable, and as it will bloom abundantly in pots, it will be of the greatest value as a market plant for florists. **10c each.**

Splendens.—The standard sort for bedding. Flower spikes of the most brilliant scarlet. **8 cents each.**

Alba.—A white variety of Splendens. Identical in every respect except in color, which is a pure white. **6 cents each.**

Splendens, Variegata.—White and red flowers. Very evenly striped. **9 cents each.**

New Salvia, Yellow Bird.—Has beautiful yellow foliage, scarlet flowers. This will become a general favorite for bedding effects. **10 cents each.**

SOLANUM AZUREUM.

The Blue Solanum. A pretty species of the same habit of growth as Stephanotis Floribunda, but with large clusters of blue flowers, which are succeeded by scarlet berries which remain perfect for a long time. **15 cents each.**

SANSEVIERA ZEYLANICA.

A new Decorative Plant of Great Beauty and Value. A beautiful plant, splendidly adapted for the decoration of drawing-rooms or halls, as it stands drouth and dust with impunity, and requires scarcely any water. The leaves grow to a length of three or four feet, and are beautifully striped crosswise, with broad, white variegations on a dark green ground. A rare and beautiful plant which should be abundantly grown for positions out of the reach of sunlight, where other plants will not thrive. When you consider that it can be placed in any position in any room and do well, its great usefulness is at once apparent. It has a singular beauty for decorative purposes other plants do not possess, and is useful both Winter and Summer. Though grown mainly for the beauty of its foliage, it is by no means an insignificant flowering plant. It blooms usually during May and June, sending up great plum-like spikes a foot or more in length. The flowers are numerous and composed of long, narrow petals, which recur gracefully, and are of a creamy white color. It is difficult to find a more unique or ornamental plant than this, especially when it is in bloom. **Fine plants, 10 cents each.**

SWAINSONIA ALBA.
Something New and Valuable. It will bloom both Summer and Winter. A beautiful continuous flowering new plant, with pure white sweet pea-like flowers produced in sprays of from twelve to twenty blossoms each. Nothing surpasses it as a decorative plant for the window or conservatory. The pinnated, feathery, fern-like foliage is a cheerful light green, and has always a neat and clear appearance. It is of easy culture, growing in almost any light position. Its great freedom of bloom, being seldom without flowers, the grace, purity and beauty of its flowers, and the neat habit and fine appearance of the whole plant will undoubtedly make it one of the most popular plants in cultivation. Especially valuable for cutting. Owing to its ease of culture and beauty of both plant and flower, it is one of the most valuable and desirable house plants that has yet appeared. **10 cents each.**

EXCELSIOR PEARL TUBEROSE.

New Swainsonia, Splendens.—Same as the above, with bright scarlet flowers. This is the only true scarlet variety. **10 cents each.**

STEPHANOTIS FLORIBUNDA.

This is the well-known vine for house culture that is always scarce, being difficult of propagation. We have been fortunate to grow a stock of several thousand fine plants. It is a hard-wooded vine, with thick, leathery leaves, bearing bunches of pure white flowers that are deliciously fragrant. Indeed, it is the most charming of all fragrant flowers. **15 cents each.**

STROBILANTHES DYERIANUS.

Royal Purple.—A new and very beautiful foliage plant from Singapore, which will become universally popular on account of the brilliant and exquisite coloring of the leaves, the beauty of its flowers and its extraordinarily easy growth and usefulness as a decorative plant. It surpasses the finest Coleus in exquisite coloring of the leaves, besides which the long racemes of lovely violet blossoms with which the plant is covered in mid-Winter greatly enhance its value and beauty. **10c each.**

Excelsior Pearl Tuberoses.

The Finest in Existence.
All Blooming Bulbs.

CULTURE.—Tuberoses may be grown indoors preliminary to planting them in the open ground. Plant outdoors as soon as the ground becomes warm and all danger of frost is past. Plant two or three inches deep and six to eight inches apart in the row. They like rich soil and plenty of sun. If there is danger of frost before the flowers are done blooming in the Fall, lift carefully with earth on the roots, plant in pots or boxes in a

warm, light place, and they will continue to bloom for several weeks.

Dwarf Excelsior Pearl Tuberoses. Year after year its popularity has increased until the demand for it has reached enormous proportions. It grows about eighteen inches high, blooms early and with the greatest freedom; matures perfectly. Flowers pure white, very double, of immense size and intensely sweet. This is the sweetest of all Tuberoses. Fine, extra large, well-ripened bulbs, all sure to bloom. **6 cents each; five for 25 cents; twelve for 50 cents; thirty for \$1.00.**

VERBENA.

Mammoth Flowering. In this grand new strain has been developed a mammoth Verbena that produces uniformly magnificent large trusses, with flowers of unusual size and of a wide range of colors. The individual blossoms are frequently larger than a silver quarter—in fact, many are scarcely covered by a silver half dollar. Take a silver quarter and try to cover any of the single flowers of the corymb, and you will realize how magnificent in size are the single florets. The colors are varied, and embrace all desirable markings. It is so grand that we want all our friends to have it, hence offer the plants at a very moderate price. **8 cents each; seven for 50 cents; or fifteen distinct varieties for \$1.00.**

VINCA, MAJOR VARIEGATA.

This is a beautiful variegated trailing vine admirably adapted for hanging baskets and vases. The leaves are a glossy green, broadly margined a creamy white, flowers blue. More Vincas are employed in vase and basket work than all other vines combined. **6 cents each.**

Beautiful and Fragrant Violets.

Of all delightful perfumes that of Violets is the most delicate and pleasant, and places the modest little blue flowers among our greatest favorites. Violets grow and bloom during the dead of Winter with no trouble whatever, if given a cool situation, but will not succeed in a warm place. Violets are now grown by the million, and where they can be grown out of doors many ladies are planting them and furnishing the cut flower dealers of the cities with their supplies at a nice profit. We furnish the best cut flower varieties at **\$4.00 per hundred, by express.**

Double White, Perpetual Flowering Violet, Swanley White, or Queen of Fragrance.—Of all the white Violets this is the best, either for pot culture in the house or bedded out. In pots it grows luxuriantly, and is loaded with flowers. It is not an uncommon sight to see as many as fifty large flowers open at once, presenting a beautiful sight, their delicious perfume filling a whole room. **10 cents each.**

Lady Hume Campbell.—A true ever-bloomer. This is one of the finest of all double blue Violets. It is simply wonderful the number of beautiful flowers it produces. In color it is a shade of the richest intense blue. It is a charming contrast with the white variety. **10 cents each.**

Imperial, or Parma Violets.—(New.) This is, without question, the largest, richest colored, and most highly perfumed of all the Violets. It blooms very freely, literally bending the plant with its lovely blue flowers of the largest size. Its blooming season is longer than any other Violet. Size of a silver half dollar. **10 cents each.**

Hardy Russian.—This is the hardiest of all Violets, deep rich blue in color. A strong grower. You will have no trouble to grow this variety, as it thrives everywhere. **10 cents each.**

Marie Louise.—(Baby Blue.) To contrast with white we offer this double, deep, bluish purple, sweet-scented variety. Desirable for pots or gardens. Plants hardy and bloom freely. This variety is planted more largely by florists than any other. **10 cents each.**

THE SET OF FIVE VIOLETS FOR 35 CENTS.

LADY HUME CAMPBELL VIOLETS.

HARDY SHRUBS, VINES & PLANTS.

ALMOND, Double Flowering.

A desirable class of early-flowering shrubs. Double White, 20 cents each; Double Rose, 20 cents each.

AKEBIA QUINATA.

A perfectly hardy, fast growing Japan vine, with magnificent foliage, producing flowers in large clusters, of chocolate purple color, possessing a most delicious perfume, unsurpassed for covering trellises and verandas, the foliage never being attacked by insects. 15 cents each.

AMPELOPSIS VEITCHII.

Sometimes called "Boston Ivy" and "Japan Ivy." It is adapted to all situations, and transforms the humblest cottage. It is entirely hardy in the most exposed places, attaining a height of twenty to thirty feet in two to three years, clinging to stones, brick or wood work with the greatest tenacity. For covering dead trees, gate posts, boundary walls, verandas, etc., it has no equal, while its rapid growth and tenacious clinging qualities make it a most desirable plant for staying up terraces. In the Summer the foliage is a rich shade of green, but in the Fall it assumes the most gorgeous tints of scarlet, crimson and orange, so dazzling as to be seen at a great distance. 10 cents each; strong two-year-old plants, 25 cents each; extra strong three-year-old plants, 40 cents, three for \$1.00.

ACHILLEAS.

New Achillea, The Pearl. (*The Great Cemetery Plant.*) It is a hardy perennial, the top dying down to the ground every Winter. A plant will produce hundreds, and even thousands of flowers the first Summer, but when established the second year they frequently have more than five thousand perfect flowers on a plant at the same time. It commences to bloom early in July, and is a perfect mass of beautiful flowers till frost, the same bloom keeping perfect two or three months. Its flowers are pure white, perfectly double, and produced in large sprays, making it one of the finest cut flowers for bouquets, vases, baskets, etc., or for any kind of decorations. 10 cents each.

New Rose Colored Achillea, Millefolium Rubrum.—It produces large clusters of flowers a deep lake rose in color, making it wonderfully attractive when placed among the shrubbery or Rose beds giving all a graceful effect. 10 cents each.

NEW DOUBLE ANEMONE "WHIRLWIND."

This beautiful Japanese Anemone has, since its introduction, proved one of the finest hardy Fall-blooming plants in cultivation, growing to a height of three feet, and holding up on stiff stems flowers from two to a half to three inches across, of pure white, and heavy waxy texture. A large bed of this is worth going miles to see, and the large, graceful flowers are unexcelled for cutting. 10 cents each.

HARDY MOON VINE.

Pure white flowers and entirely hardy. 10 cents each.

HARDY SCOTCH, or SWEET MAY PINKS.

These are the pinks of our mothers' gardens. Growing about one foot in height, the color being of the various shades of maroon, carmine and rose, beautifully laced and banded on white ground. The flowers are perfectly double, and clove scented. Entirely hardy. 8 cents each.

PEONIES. The Pineys of Our Mothers' Gardens.

They are all hardy and admirably adapted to the climate of the Northern States. We offer a splendid assortment in twelve varieties. 25 cents each; five distinct kinds for \$1.00.

TREE PEONIES.

These species do not die down to the ground like the herbaceous sorts, but make fine bushes three to four feet high, covered in Spring with immense flowers. 50 cents each.

PLUMBAGO, LADY LARPENT.

This is a dwarf-growing variety, bearing deep blue flowers, hardy everywhere. 10 cents each.

HARDY MAGNOLIAS.

These hardy Magnolias can only be sent by express. Do not order them by mail. We offer three colors, red, rose and white. Hardy, strong plants for 60 cents each; the three colors for \$1.50.

PHILADELPHUS, MOCK ORANGE.

Grows to a height of eight to ten feet. We have both the double and single-flowered. 10 cents each; large, two-year-old plants, 25 cents each.

PURPLE FRINGE.

Much admired for its long, feathery flower-stalks, which give the tree the appearance of being covered with a cloud of smoke. 20 cents each.

PASSIFLORA, CONSTANCE ELLIOTT.

This is the hardy white Passion Flower, and is loved by everybody. 10 cents each.

PYRUS JAPONICA, Burning Bush, or Japan Quince
A splendid lawn plant. The bright scarlet flower, produced before the foliage, makes a gorgeous display. 20 cents each.

CALIFORNIA PRIVET HEDGE PLANT.

It is very hardy, easily and quickly pruned, and will grow almost anywhere. Eighteen inch to two-foot plants, 10 cents each; \$1.00 per dozen; \$6.00 per hundred.

HARDY PHLOX.

Price, 10 cents each; the set of seven for 60 cents.
Cross of Honor.—Beautiful light rose, striped pure white.
Flora McNab.—Pure white and free.
Lothair.—A brilliant salmon rose.
Princess de Furstenburg.—White, with carmine eye.
Sir E. Landseer.—Brilliant dark crimson. Large, fine flowers.
Stanley Rival.—Rose pink, dark crimson rays.
Triumph de Twicken.—A rosy magenta.

RHODODENDRON, ROSE HAY.

Hardy. Leaves broad, glossy and evergreen. In June the display is worthy of admiration. The plants we offer range from twelve to twenty-four inches high, well established, many set with buds. Colors bluish, rosy crimson, dark scarlet, lilac, crimson, purple and variegated. Fine, large plants, two feet high, with large branching head, with from eight to ten buds, sure to bloom this Spring, \$1.00 each. If Rhododendrons are to be sent by mail, add twenty-five cents for postage for each plant.

RUDBECKIA LACINATA, "Golden Glow."

A hardy perennial plant growing eight feet high, branching freely and bearing by the hundreds, on long, graceful stems, exquisite double blossoms of the brightest golden color, and as large as Cactus Dahlias. 10 cents each.

SPIREAS.

Plumifolia.—Flowers like double small white Daisies, known as Bridal Wreath. 10 cents each.

Van Houtte.—Clusters of twenty to thirty flat, white florets make up the raceme. Perfectly hardy and an early bloomer. 10 cents each.

New Crimson Spirea, Anthony Watterer.—A bright crimson. Makes a low, compact bush fifteen to eighteen inches high, well covered nearly the whole growing season with large umbels of deep crimson flowers. 10 cents each.

Large two-year-old plants of the above three Spiraea for 25 cents.

Blue Spirea, Caryopteris Mastacanthus.—Extremely floriferous. Plants from small pots becoming profusely and continuing to do so throughout the season. The dense flower-heads are of a rich lavender blue. 10 cents each.

THE EVER-BLOOMING TRITOMA.

The greatest bedding plant ever introduced, surpassing the finest Camas for attractiveness and brilliancy, equal to the Gladiolus as a cut flower, and blooms incessantly from June until December, regardless of frost. Plants perfectly hardy in open ground all Winter south of Philadelphia. Further north they must be protected or wintered in a cellar like the ordinary Tritoma. Just bury the roots in sand; nothing more is required. Should be planted out very early in the Spring, and will commence growth and bloom at once, growing larger and finer every day. Plants show six to twenty grand flower stalks all the time, each holding at a height of three to four feet a cluster of flame colored flowers of indescribable beauty and brilliancy. Each cluster keeps perfect several weeks, and when it fades two or three more are ready to take its place. Fall frosts do not kill it or stop its blooming, and it is as brilliant as ever long after all other arden flowers have been killed. For cutting it is unsurpassed, and the beautiful long spikes keep several weeks in water. **Strong plants, that will soon bloom, 25c each.**

VIBURNUM OPULUS, SNOWBALL.

Attaining a height of eight feet. Produces its snow white flowers in large balls or masses in June. 15 cents each; two-year-old plants, 25 cents each.

VIBURNUM PLICATUM, JAPAN SNOWBALL.

A new variety of Snowball from Japan. Foliage olive green through the Summer, but toward Fall it turns much darker and remains on the plants for some time after the first frosts. Flowering to six inches across. 15 cents each; two-year-old plants, 25 cents each.

WISTARIA. A Popular Hardy Vine.

It grows very rapidly, climbing to a height of fifty feet or more. Desirable for porches, trellises, etc. It flowers in early Spring in long, drooping racemes. 10 cents each; large plants, 35 cents each.

WEIGELAS.

Rosea.—Flowers large and rose colored, borne in such profusion that the whole plant appears a mass of blooms. 15c each.

Variegated-leaved.—Deep green leaves, broadly margined yellowish white. 15 cents each.

Candida.—A strong, erect, upright grower. Flowers pure white, and produced in great profusion in June. 15c each. **Two-year-old plants of the above Weigelas, 25c each.**

Giant Flowering Caladium

"NEW CENTURY"

A New Species from Central America, and the Grandest Foliage and Flowering Plant Yet Introduced.

Leaves larger than any other Caladium, having a heavy, leathery texture and a bright, glossy-green color, with metallic luster which is remarkably handsome. It does not produce a bulb, but is increased by suckers, and is perennial. The leaf-stalks are strong and tall, holding the mammoth leaves well above the ground. Leaves 3 to 5 feet by 2 or 2 1/2 feet broad; perfectly immense, and make a plant which for tropical luxuriance has no equal. Added to this wonderful foliage effect are the mammoth lily-like blossoms 14 to 15 inches long; snow-white, changing to cream; with a delicate and exquisite fragrance so powerful as to perfume the whole garden, filling the air with fragrance a long distance. Plants bloom perpetually all Summer in the garden, or all the year round in pots, and are hardly ever out of bloom. Not only is it the grandest garden or lawn plant, but as a pot plant for large windows, verandas, halls or conservatories it rivals the choicest palms in foliage, to say nothing of its magnificent flowers. Thrives in any soil or situation and grows and blooms all the year. As many as 6 to 12 flowers successively are borne on stems 18 inches high. Regardless of all praise, the plant will astonish everyone with its magnificence—so novel and so wonderfully effective, and growing and fragrant. One flower is sufficient to perfume a large room with a most delicate aroma.

Strong plants, 30 cents each; two for 50 cents; five for \$1.00.

BOWKER'S AMMONIATED FOOD FOR FLOWERS

A NEW ODORLESS FERTILIZER FOR POT PLANTS.
MAKES PLANTS GROW AND BLOOM LUXURIANTLY,
AND DRIVES INSECTS FROM THE SOIL.

It starts the plants at once into a healthy and vigorous growth and abundant bloom. It drives worms and other troublesome insects from the soil. It has no disagreeable odor, and is the only Artificial Fertilizer which can be used without danger or injury to the plants. It takes the place of liquid manure, and is just the thing that has been wanted for a long time. We have sold tens of thousands of packages of it, and have yet to hear the first complaint. If your plants are doing poorly, get a package and see how quickly they will be benefited. It acts like a charm. The Ammoniated Food is put up in wooden boxes, with attractive wrappers. One package, suitable for twenty-five ordinary-sized plants for one year, for 50 cents.

SENT BY MAIL, POSTAGE PREPAID, ON RECEIPT OF PRICE.
